This year, Homecoming was a blast. Both First Soccer and Under Sixteen Football won their games against the UCC teams and although we won nothing else, we made a good showing at all our games. The bear, Wilf Dinnick, and the caped man, Scott Mahaffy, were an inspiration to us all on the football field.

But is Homecoming only about sports? Far from it. What about the old boys? Large numbers of them trooped back to the school for that special Saturday. Some wanted to show their children and grandchildren where they had gone to school. For much of the day, the

residences were crowded, but quiet. Old boys as far back as the 1930's came back for a visit and to buy things from the famous SAC Gifts.

There is still more, however, to say about Homecoming. The Homecoming dance, for instance, was perhaps the best dance ever at SAC. Much Music showed videos to a crowded New Gym until midnight; the young people going to the school and of course the visiting girls, all had a great time of it.

...It was a happy Homecoming.

# SKI DAY

Ski Day was held this year on Thursday, January 25, 1990. Winter had arrived early and Blue Mountain was open for business on the last weekend of November. Cold temperatures and abundant snowfall through December provided some of the best skiing Southern Ontario has seen in recent years. Everything looked auspicious for one of the best ski seasons in years.

Then the January thaw set in bringing rain and warm temperatures well above freezing. The success of Ski Day looked doubtful. As the day approached temperatures plunged and the ardent ski enthusiasts of St. Andrew's swarmed the slopes of Blue Mountain. Although conditions were fast and a little icy and not ideally suited to the novice skier, the majority of skiers had a very enjoyable day.

The X-Country crew under the watchful eye of Happy Harper harangued the Hardwood Hills near beautiful Barrie for the day and enjoyed the sylvan setting of one of Ontario's best X-Country ski areas. Many thanks to all of the staff and students who participated in this day and made it successful.

# MACPHERSON TOURNAMENT

As usual, the Nichols Vikings won this year's MacPherson Tournament. It was something that all expected since Nichols spends a lot of its time playing about on the ice. In Physics classes they undoubtedly learn the Physics of Hockey, in their Chemistry class, they probably learn the chemical composition of hockey pucks, and they all make hockeysticks in woodworking.

This is not to say that St. Andrew's College did badly this year either. As always, we kicked the other teams to Kingdom Come on the Friday night game this year. The Saints had a 6-4 victory over the Oromocto Blues during that game. Scott Bryk led the cheering on behalf of S.A.C. Wearing a siren on his head and carrying an aerosol can with a little trumpet in the nozzle, Scott took every opportunity to cheer on the Saints. Whenever a goal went in against the opposition goal-tender, the entire school came to its feet and shouted 'It's all your fault!'. We surged to our feet quite often to sing with our off-key voices, 'Oh yeah the Saints'. When the game ended with S.A.C. winning by two goals, the students hopped the barriers on the ice, hitting the flushed Saints on the back, expressing their most heartfelt congratulations.

This was unfortunately the last MacPherson Tournament for many of this year's players. Captain Mike Smith, Assistant Captains Steven Creber and Mike Alexander, forward Todd Mank, goalie Adam Wharton and many others are graduating in 1990. Hopefully, these valiant players will have suitable replacements. The S.A.C. team was so good this year that we lost only 5-0 to Nichols, rather than the 11-0 of last year. Who knows, if this goes on, we might manage to wipe up the ice with Nichols in two years.

This year's tournament was the seventh ever to be played at S.A.C. Started in 1984, it was named after the late Lloyd C. MacPherson and given strong support by the late Jim Hamilton and Judge Robert Meagher. St. Andrew's has been playing hockey since the early 1900's and at least six S.A.C. students have played on Canada's Olympic Hockey teams. We may all hope that S.A.C. will continue to contribute to Canada's prowess at our favourite game.

# DEBATE

There were those who thought that S.A.C. debating would be a sadly depleted force in 1989-90. Such has not turned out to be the case. New feet stepped into old shoes; fresh opportunities were grasped; former traditions were maintained; unfamiliar challenges remain to be faced.

We had an inner core of about fifteen debaters and public speakers who were regular and active, an outer circle of another fifteen whose involvement was restricted to one or two events, a struggling group of about fifteen juniors who suffered from having no one to sponsor their program, and beyond that there were at least fifteen more who experienced debating at first hand by means of our intramural and social program.

**BACK TO BOSTON** An early highlight in the year was the chance to renew our friendship with Roxbury Latin School in Boston who hosted the International Independent Schools Public Speaking Tournament. Three of our most busy members bore the standard here: Allan Best, Stephen Rotstein and Robert Savage. We were billeted with families, saw some of the historic sights, and even took in the Barnum and Bailey Circus.

**SHAKESPEARE TO CHURCHILL** Other public speaking opportunities abounded, especially in the third term. April 23rd, the birthday of the Bard, was celebrated by a novel event in our circuit called *Shakespeare on the Platform*. Robert Leckey, one of our most promising new members, declaimed both a soliloquy and a sonnet before distinguished adjudicator, Tom Kneebone. Michael Worry was our spokesman in the annual Churchill Medals at U.T.S. and we had six contestants at T.C.S. competing in events like dramatic interpretation and "triplespeak". Geoff Browne and Brock Whalley both showed real ability here.

**PERU TO YUGOSLAVIA** Once again we provided S.A.C.'s delegation to the Southern Ontario Model Assembly. Eight of our young men represented Peru and Yugoslavia in this simulation of the United Nations - under the guidance of Mr. Halstead.

**ALBERTA TO P.E.I.** During SOMA week, Mr. Ray was taking part in meetings of the Board of Directors of the C.S.D.F. in Medicine Hat. During the March Break, Mr. Ray went to P.E.I. to act as a resource person to the provincial debating program. He found it stimulating to interact with coaches and students from every part of the country. In many ways the C.S.D.F.'s problems are a microcosm of those that affect the country as a whole: language rights, regional disparity and the like.

**O.S.D.U. AFFAIRS** St. Andrew's did its bit for bilingual relationships by offering to host the tournament that selected the French speaking delegates from our part of Ontario to the Provincial Seminar in Windsor. Particular credit goes to Mr. Arril and to Paul Arhanic for coordinating the organization of this event. We chose a timely and thought-provoking issue for the debaters who came to us: B.I.R.T. misogyny is alive and well in Canada. From our team of Liam Robinson and Allan Best, the latter won the right to travel to Windsor. Accompanying him was Ron Kopas who earned the same privilege as a result of his efforts in English at Brebeuf College School. Congratulations to both our representatives; Allan place sixth out of all bilingual debaters from across Ontario.

It was in the spring that we resolved to make a significant statement of our prowess. And here it was that we encountered disappointment. Final Fulford was convened on May 5th, the same day as our Cadet Inspection - no go!

Happily an alternative opportunity presented itself to four of our best debaters who had been looking forward so much to the Fulford, their last hurrah as it were. The Headmaster of the Toronto French School proposed a challenge between our two schools with a beautiful new trophy riding on the outcome. The format would be two simultaneous debates before the two student bodies on the same resolution - their four best against ours! The subject for debate would be Thoreau's contention that man was more savage than civilized. Mr. John Morrissey of our parent community joined Mr. Ray in preparing our teams: Alistair Cowper and Stephen Rotstein to debate the government there, Wilf Dinnick and Ron Kopas to debate the opposition here. Steve and Alistair won unanimously; Ron and Wilf lost a close split decision - the new trophy will spend its first year at St. Andrew's.

#### TOURNAMENTS SOCIAL AND OTHERWISE

After several years of experimenting with different systems for holding two rounds of intramural debate per term, we may at last have hit upon a successful formula. Both Branksome and St. Mildred's-Lightbourn honoured us with visits bringing teams at four levels. Their teams provoked more enthusiasm from the House than is usual and the quality of debate improved noticeably. There were opportunities to debate in many other tournaments throughout the year: St. Clements, Toronto French, Trinity and Upper Canada to name the main ones. Most every week we met on Tuesday evenings in the warm atmosphere of the Tuck Shop to plan our choices and strategies. We also sent teams to some longer weekend affairs: Ashbury, Queen's and McGill.

**WINNIPEG** Two happy developments occurred in connection with Winnipeg. In the early spring we played host overnight to twelve junior debaters and their coaches from St. John's-Ravenscourt and Balmoral Hall. Just a month later, one of our own juniors, Ryan Lawlor, was part of the delegation which represented Ontario in the third National Junior High School Tournament which took place in Winnipeg.

**PRIZE DAY** Robert Leckey received the Mitchell Prize, Alistair Cowper and Wilf Dinnick shared the Leslie Prize and our club president, Stephen Rotstein, was honoured with the Brooks Trophy. My thanks to all these youngmen for their outstanding contributions.

R. Ray

**DISAPPOINTMENT TO DELIGHT** As always, our chief allegiance was to the Fulford League. In the fall we travelled to Grenville Christian College, most distant of our seventeen member schools. We stayed overnight in their residences, sampled their rather special lifestyle, and were showered with kindness. In the winter we travelled to Appleby to debate whether Glasnost posed a threat to the West. Mr. Timms, in light of his recent Russian experience, acted as coach of the team. In each case our showings were respectable, but not as high as we hoped.

# CHOIR

This year saw the Trebles of St. Andrew's reach higher and more varied goals than ever before. But best of all, the entire group had fun doing choral music!

These fellows are the best choral "team" to come out of the College since the re-introduction of a choral program three years ago. Each took ownership of the success of the entire group and we developed pride in the quality of our performance early in the year. A natural result of this process was measured in the winning of a first Prize in the Treble Choir category with a score of 86 in the Lion's Music Festival! This is the second year in a row that we've enjoyed this honour.

Other new events of the year include a master class by THE GENTS and a special concert in FOCUS dedicated to the unique beauty of the boys' vocal sound called "The Art of the Treble Voice". At this the choir of St. George's College, Toronto was also featured.

The amount which this group achieved speaks of the dedication which all of the members of the choir brought to this special art form. The following are the highlights of the season:

- Brother James' Air
- Psalm 121 (Davies)

## Carol Service (St. Paul's Church, Toronto)

# FLAVELLE HOUSE

# MEMORIAL HOUSE

Memorial House has been lead by Mr. Raaflaub for the past two years. Mr. Raaflaub has introduced new ideas and systems that have proved to be for the better of the house and its members. He has also given the house space to undertake house projects and challenges, encouraging and supporting them the entire way.

New faces and new ideas have both maintained house traditions and incorporated new ones. Among these activities are: Christmas Gift Giving, house dinner, baseball games, breakfast at the Griddle, chapel reading, and the ever famous Sam Alvaro all you can eat b.b.q.

This year Memorial House was proud to support Rob Innes and Sean McQuillan in their musical talent expressed on many occasions throughout the year. The house has founded new and strong leaders for the school in students such as Ian Davidson and Scott Mahaffy. The house says goodbye to Wilf Dinnick, Mike Alexander, and Jamie Graham who carried the house through leadership and example.

In retrospect, it seems to have taken Memorial two years to achieve a new identity. Memorial still maintains the old room raid tradition but the house was able to buckle down for the Christmas and June exams. With activities, regulations and freedoms Memorialites had time to work and time to play. Memorial now stands as a happy median between the Fascism of Flavelle and the Anarchy of Sifton.

On behalf of the entire house I would like to thank Mr. Raaflaub. He put in long hours of work and worry. His commitment to the house as to the school was enormous. The house will feel his loss but it wishes Mr. and Mrs. Raaflaub the best of luck in there future at that other school.

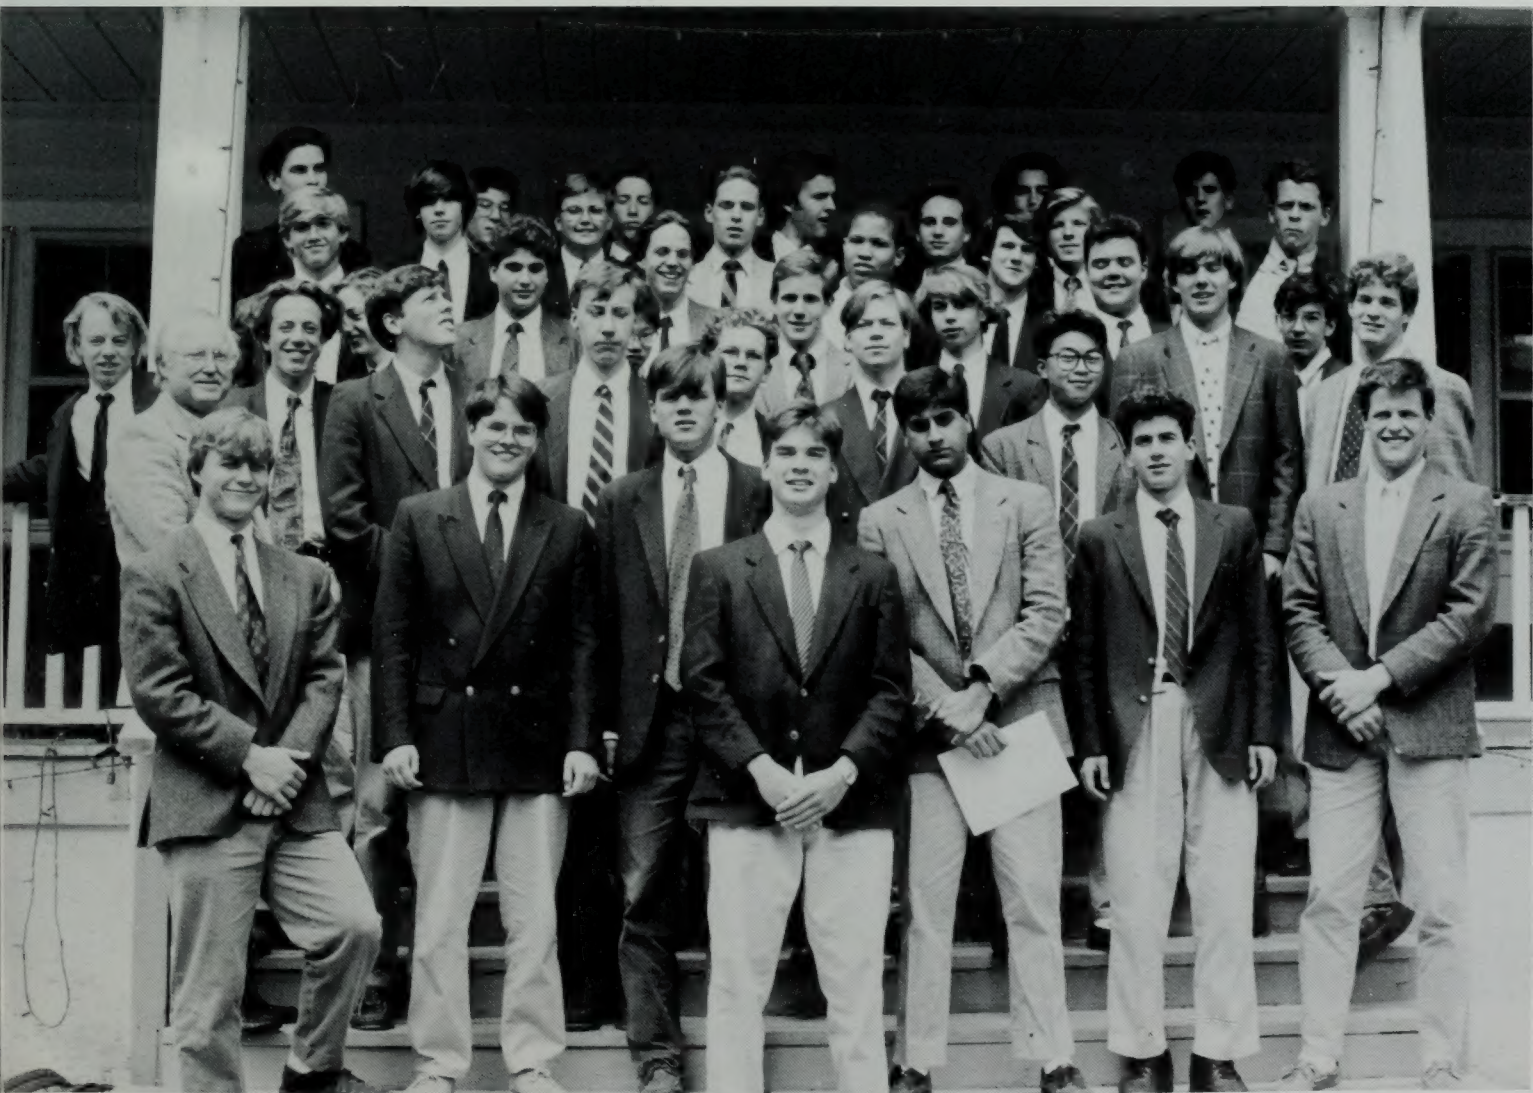

Forever Memorial Rules!

The past year will be remembered by those of us in Macdonald House as one with many high points and a few low ones. As usual, we welcomed a large number (52) new boys who quickly settled into the routine which we require.

We were most fortunate to have excellent leadership from our heads of House, Scott Bryk and John Clarke. Their energy and dedication to the task at hand was truly inspiring. Similarly, we were all quite pleased with the accomplishment of our newly formed Mac House Council led by Robert Keto. Along with Zach Math, Dave Michael and Adam Smith many house activities, BBQ's and sleep-in breakfasts were completely organized by them. They were also instrumental in the organization of the House Rugby shirt and the refurbishing of the TV room. Their efforts shall not be soon forgotten.

Over the course of the year, we were pleased to witness the completion of room renovations. Each room is now carpeted and all furniture has been replaced by new and more durable styles. I have again been impressed by the care shown by most boys toward these new additions to the house.

Another highlight of the year was the renewing of the inter-clan competitions between Bruce, Montrose and Wallace. In addition to the school competition, we had competitions in Clan floor hockey, basketball, trivial pursuit and crocholine. Points were kept for each of the three clans in a competition for a newly created award. The Ray Trophy will be presented annually to the most distinguished clan in Macdonald House. The award is in recognition for the

tireless work of Mr. Rupert Ray as a Macdonald House duty master for the past 22 years along with his efforts in helping to maintain the integrity of the College's clan system. This year's recipient was Bruce Clan headed by Adam Smith and David Burgess. We have also been able to re-introduce two House awards which have been out of circulation. The Ronald MacMillan Memorial Trophy is presented to the best Under 15 athlete and was awarded to David Michael, while the Ladies' Guild Athletic Award is presented to the best Under 14 athlete and was awarded to Zach Math. Congratulations to our King Memorial Trophy winner, Robert Keto, and the Edith Grant Trophy winner, Ryan Lawlor.

I would like to take this opportunity to thank my Assistant Housemaster, Mr. Galajda, my duty masters, House Captains and last but not least, the boys of Macdonald House for a year of growing and learning.

### Life Without Lenin

After 72 years, the Soviet Union gave up on one-party rule and instead for the benevolent dictatorship of Mikhail Gorbachev. The decision to abandon this legacy was the boldest of Gorbachev's career. In scrapping the Communist Party's leading role, Gorbachev strengthened his own hold on power but risked dangerous instability in the party that now dominates every Soviet institution beginning to split apart.

Could this be the fall of the iron curtain?

"You Bloody Day-boys" . . . Geoff Smith

by Andrew Lee

For a boarder's information, a Day-boy's life is not one of pussy-foot ways; in fact, it's an adventure almost every day about "a few good men" going into battles that deal with teachers, car privileges and horrorshow common rooms.

Living the adventure builds character, teaches discipline, and most importantly, excuse-making, which helps to beat the system at S.A.C. To make a few boarders envious of our status, we'll spill some beans about day-boy living.

First, you wake up late (of course!) so more sleep is gained and chapel is missed; the excuse for missing chapel could be: "My sister's bus flipped over on the way to pick her up, so I had to drive her." Or you could try, "I had to drive my parents to the airport, sir." In the case of a contact lens wearer, "It fell out of my left eye on Highway 9."

As break approaches, day-boy smokers give their attention to du Mauriers and head for the parking lot. As lunch approaches, all the day-boys give no attention to the "House of Greasy Spoon"; instead, they think of another type of greasy spoon, "McD's" or "Colonel Saunders" and scamper off to the parking lot.

For the ones who stay put in school during break, lunch and even the

spares, a daily ritual for day-boys is a pep-talk in our jungle, the common room. How can anyone ever forget a room with a few holes in its walls, a ceiling missing a few tiles, and a rug that resembles a snotty kleenex? Let us not forget the authentic graffiti on the noticeboard, tables missing their legs, teabags and balloons hanging from the 'famous' ceiling; this place comes close to Hell's kitchen. When the frustrations are high and the troops are getting restless, energy is exerted on some poor soul(s) who will either be stripped to the Fruit of the Loom, targeted with air-borne garbage, or beaten with a Globe and Mail.

Finally, when the school day comes to a close, the day boy 'scum' excels on the playing field, be it football or recreational golf, and on the roads home, be it the 404 or Yonge Street.

St. Andrew's is considered a boarding school, where achievements of greatness and manhood take place on the planets of Sifton, Flavelle and Memorial; but certainly not on the distant moons of New and Ramsey. However, a new, refreshing bunch of Andreans is being bred; classy and fun intellectuals who drive cars 'very well' (especially during lunch), ransack common rooms to the brink of disaster, play great tricks on each other, and most of all, come up with the best excuses known to mankind.

It's the 'bloody day-boys'.

*Jim Hamilton left the St. Andrew's College campus the way he wanted — to the skirl of the pipes surrounded by his family and hundreds of friends — following a 'celebration of his life' held in the school chapel on November 23, 1989.*

*For sixty-one of his seventy-four years, Jim had deep roots in the Andrean community. I miss him, not only for his professional and fatherly advice, but for his encyclopedic knowledge and memory of people and events which shaped our history.*

*We will all remember him as a builder of the school, not only in the physical sense, but in the philosophical one as well. He was a dedicated and loyal friend to young men who are now leaders in their chosen fields in all walks of life scattered in our country and many others.*

*The last words he spoke to me were 'thank you'. No, Jim, it surely is the other way around — thank you, from all Andreans.*

*Sincerely,*

*Jim Herder '64.*

In 1965 when Jim Hamilton came back to St. Andrew's, Aurora and Toronto still seemed far apart, and the main artery linking them was still Yonge Street. He found a school which had undergone an expansion in 1962 with the addition of the Great Hall, Ketchum Auditorium and the creation of a fourth residence, now Sifton House. These changes had increased the school population from 220 to 350. Today enrollment stands at 450.

Jim returned after a career in business and six years of service to his country in World War II. He came at the request of Bob Coulter, Headmaster and the Board of Governors who felt it necessary to establish firmer links with the Andrean community.

Jim became the school's first development officer. He accepted a challenging job for he had to organize an office and staff it.

Old boy records had been kept prior to this time by volunteers, usually members of the teaching staff. Mike Adamson and Henry Holden, Allan Ramsey and Bob Laidlaw are some of the many who had clipped newspaper articles for years and thus provided Jim with a solid base to start.

Jim was the right man for the position. He had attended the school from 1928 to 1933 and as a student had been successful at sports and had been awarded the Lieutenant Governor's Bronze Medal for academics. He had enjoyed the school as a student and as a mature man made the commitment to help ensure its future.

During the ensuing years he quietly worked at renewing old boy awareness of the school. He reorganized the newsletter keeping Andreans informed about

their peers and assisted the SAC Association with annual dinners, old boy events, tournaments and fundraising. He attracted volunteers to assist in his efforts, in part because of his enthusiasm but mostly because he exemplified the ideal Andrean. He was intelligent, articulate, with a lively sense of humour, a lover of sports, a gentleman who played by the rules. Throughout his years at St. Andrew's his vivacious wife Betty was a continuing source of strength.

In the fall of 1985, Jim Hamilton passed the torch to Jim Herder, another Andrean Old Boy.

We will miss Jim Hamilton's familiar face at school events but when we look around our beautiful campus his efforts are in evidence everywhere.

# CHANGES

Brian Raaflaub leaves after ten years at St. Andrew's College. Currently he is Head of Mathematics, Housemaster of Memorial House, Commander of the Cadet Corps, and Kayaking coach. He and his wife, Catherine, have accepted positions at Appleby College, he as Head of Mathematics and she as Dean of Women. They are expecting their first child in the fall.

Robert Caldwell has accepted a position with Lawrence University in their Development Office. He has been seen everywhere in the past couple of years, tutoring, supervising dances, working in the Development Office but he will be remembered most for making the Tuck Shop a warm, inviting place filled with memorabilia from the College. He married Heather last summer, and they are awaiting the birth of their first child - a playmate for Bosley?

Kate Carson has headed to Salt Spring Island after three years as Librarian. The past year has seen the installation of a computerized catalogue and the first steps in making the Library part of the computer network.

Adrian Hoad-Reddick, is moving to Hamilton after just one year at the College. He has been a member of the English Department and a vital part of the steering committee for the Computer Network. He and His wife, Susan, welcomed their first child Katherine Olivia (Kate) in the fall.

Terry LaChance is going back to school in the fall to study Education at the University of Windsor, leaving the College after teaching Computer Studies for one year.

#### Births:

Stephen and Beth-Anne Harper welcomed a second child, Sebastian Andrew, in September.

Tino and Christine Paoline have a new daughter, Michela Alexandra born in November.

Mike and Diane Hanson also welcomed their second child, Joshua James, in December.

#### Other Happenings:

Married this summer - David Gaertner.

The construction of the sixplex was completed in September of 1989 which provided housing on campus for six masters.

The Headmaster, Robert Bedard, and his son, Peter, represented Canada at the Remington Family Tennis Championships in Port St. Lucie, Florida. Both got to the semi-finals of the individual competitions and the father and son team got the finals of the Kiam Cup.

## DEVELOPMENT OFFICE

In March 1989, the school broke ground for a major addition to our indoor sports facilities - the first such athletic expenditure in just over a decade.

The original St. Andrew's swimming pool was a gift from Lady Eaton in 1926, who dedicated it to the memory of her husband, Sir John Craig Eaton. By the late 1970's, despite a new roof and other major improvements and repair jobs, it became obvious that the old pool had exhausted its useful life. Also, our three squash courts were constantly in use and we needed additional courts.

However, priorities for capital funds in the academic areas took precedence and so the replacement of the pool, while needed, had to wait.

Following completion of the highly successful 'Project 85' (in which the school renovated

Dunlap Hall and added a wing to the McLaughlin Science Building) it was felt the need for a pool and three new squash courts had to be addressed.

In early 1988, the Development Office began work on the project and three old boys pledged sufficient major funding to enable further planning to proceed.

In October 1988 the Board of Governors approved the project for construction in 1989-90 so that the new facilities would be in operation for September 1990.

Hundreds of old boys, past parents and current parents have helped make our dream a reality. We thank each and every one of you for your support and we are sure that you all will be very proud of the new complex.

THE HEADMASTER

# THE HEADMASTER'S PRIZE DAY SPEECH

Mr. Chairman, Members of the Board of Governors, distinguished guests, ladies and gentlemen,

For 25 years, James Hollingworth Hamilton devoted his life and his energies to St. Andrew's College. On Nov. 23, we celebrated his life in a service in our chapel. Many of us feel his presence with us at this closing.

This day belongs to many people, particularly to our students who gave their best in the classroom, their best on the playing fields and their best in their personal relationships. We at St. Andrew's are very fortunate as evidenced by this beautiful day and by the many special people who selflessly guide us, provide us with the necessary ingredients, and dote on us on a daily basis. The wisdom, friendship and generosity of our Board of Governors, the commitment of both time and energy of our teaching staff, the yeoman efforts and accomplishments of the constituencies represented by Mr. Tetlock and Mr. Herder, the care and concern of the members of the Ladies Guild, and the interaction between parents and teachers, all contribute to the impressive achievements and reputation of our school, your school. May I be so presumptuous as to thank all these people and to add a thank you in the name of the boys.

Much of the afternoon has been devoted to the recognition of academic effort and achievement. 30% of this year's graduating class has been awarded Ontario Scholarships, and, incidentally, 22% of the entire high school body attained 80% or more on the final report. Special congratulations to our 25 Ontario scholars.

Now for a few highlights in para-academic and extra-curricular activities.

Just as we thought we were experiencing a character-building year in sports, except for an Ontario Championship in Fencing, 3 of our First teams, Rugby, Track and Field and Golf won I.S.A.A. championships in the third term. This was to the surprise and delight of all of us.

A particular mention goes to the Rugby team which completed an undefeated season for the first time since 15 aside was introduced in 1972, and to David Michael who represented SAC at OFSSA in all three terms in three different individual sports. To our knowledge, this has not occurred for at least 25 years.

I should like to commend the Junior Choir for its performance in the York Region Lions Music Festival where it was awarded First Prize with an impressive mark of 86%.

Over the past 10 years, St. Andrew's has been in the top 3 or 4 of the Ontario Independent schools in Debating. Annually, our debaters qualify and represent us in competitions provincially, nationally and even internationally. In no small part this has been the result of the impetus and expertise of Mr. Rupert Ray, who is retiring as Head of Debating, at least temporarily.

At the risk of repeating a theme which I developed at length at the Old Boys dinner in May, I should now like to mention one aspect of our technical plans for the near and distant future.

St. Andrew's College, along with the University of Waterloo, has been selected by Zenith Data Systems for a pilot project of computer networking in education. SAC is the only secondary institution in the country to be so chosen.

Computer and computer networking are not new terms to the majority of you. It is a fact, though, that networking technology has remained an unused tool in education at the secondary level.

Along with Zenith, we are in partnership with Businessland and Data Networking Services. We now have operational two Local Area Networks joined together by fibre optics cable, one in the Computer Science Lab with one in the Library. Before long, the whole campus will be cabled in fibre optics in readiness for the attainment of our ultimate goals. We can envision the day when every SAC student, from the confines of his own bedroom - whether he is a boarder or a Day Boy, will have access to the school library, to the libraries of all major universities in North America, to each other and to each teacher. We have embarked on a program which, at the onset, will be the envy of every other school in North America, but, for all intents and purposes, is the inevitable blueprint for high school education in the 90s.

And there is so much more, much of it in the research stage - and it is here, at St. Andrew's, where the research will take place.

The legacy that St. Andrew's College has inherited is a duty not only to foster academic excellence, but to minister to the whole boy in all aspects of his being. This was the cornerstone of the school's purpose and function, and during the past 91

years, St. Andrew's has grown more solid and confident in doing what it does best.

All of us at this school have a responsibility to preserve and cultivate those qualities of the mind and the spirit that give our lives reason and meaning. One of the most effective ways of achieving this aim is to make as many of the arts accessible to the greatest number of our students, and to enable them to experience a wide range of art forms in which the very values that are so much at risk are clearly visible.

Civilization, as we know it, rests on humanistic endeavour and humanistic endeavour is at the very heart of the arts. The most significant part of learning which is attributable to experience in the arts is a growth in the students' understanding about human behaviour and about the world in which they live. It is not stretching a point to say that the work done in this discipline concerns itself not only with aesthetic values but also with questions of intellectual, moral, and even spiritual significance.

Focus, our new festival of the arts, reaffirmed the central place all of the arts occupy in our culture. Many renowned visiting artists including Elizabeth Sheppard and Robert Priest conducted workshops on all aspects of artistic creation and gave magnificent performances in various areas of the campus over a period of 5 days last month. More than 150 of our students took part in one or more projects - plays, films, recitals, concerts, readings, art and photographic displays. These student performances and exhibits gave many of our boys their first real artistic experience, their first moment in the spotlight, and awakened talents and interest many of them never knew they had. Thank you Mr. Scouler from all of us for making this possible.

It is at this time each year that we acknowledge the contributions of the members of our community who will be relocating.

Housemaster of Memorial House, Head of Mathematics and Commanding Officer of the Cadet Corps, each one of these functions added to a teacher's regular responsibilities, represents a heavy schedule. But when all three are entrusted to a single individual, it is obvious that this person has contributed greatly.

During his ten years with us, Mr. Brian Raaflaub taught junior and senior Math, coached football and swimming, and introduced our popular kayaking programme. He and his wife, Catherine, are covering all the bases. They are ensuring an independent school education for their yet unborn son or daughter, as Catherine will become the Dean of Women, and Brian, Head of Math at Appleby College. We salute Mr. Raaflaub.

Mrs. Kate Carson joined our staff 3 years ago. At that time her mandate was to update and computerize the library. Her affinity and good nature quickly established that her strengths didn't lie only in the field of technology, but also in dealing with people. She created an atmosphere in the library that was conducive to study and which encouraged boys to drop in whether to research or to browse. Mrs. Carson has been staff advisor for the Review the past 3 years. We will miss her talents in this area also. Now she is off to Salt Spring Island in British Columbia and she says that there is no truth to the rumour that she will produce the Review and send it to us by Fax or by Modem.

Mr. Terry Lachance, came to St. Andrew's last September, from Ottawa, where he worked in Private Industry. He seems to have found his true vocation, as he has enrolled in teachers' college at Brock University. We wish Terry and his wife, Jane, the best of luck for the future.

Whenever the office personnel experienced a problem with the computers, they quite naturally turned to an English teacher . . . This particular teacher also coached volleyball and hockey. Mr. Adrian Hoad-Reddick and his family are heading to western Ontario. Our best wishes accompany them.

We are confident that the student body will be well served by the return of one master and the addition of 3 others. Mr. Geoffrey Smith and his wife Ginny are coming back after 2 years in Nova Scotia. We couldn't be more thrilled about the return of 'Dad', everyone's friend and confidant . . . Mr. Bob Perrier, a consummate and experienced school master joins our staff next year. Mr. Perrier will be the Housemaster of Memorial House and the Head of the Math department . . . Mr. Fraser Cowell, who has been studying towards his Master of Education degree at the University of Waterloo will join the English staff . . . and Mr. Greg Dominato, presently with IBM, will compliment our Computer Science department.

This concludes my report for the 1989-90 academic year.

Gentlemen of the graduating class, I wish to extend to you my best wishes for your future studies, and for your personal and professional endeavours and success.

Thank you.

# HEAD PREFECT'S PRIZE DAY SPEECH

Chairman of the Board, Mr. Headmaster, honourable guests, ladies and gentlemen and boys of the college.

I consider this opportunity to speak to you a honour and a privilege.

People look to us (graduates and boys of the college) as future leaders, but it is the opinion of an eighteen year old young man from which I speak. Maybe we will be leaders, maybe we will not; it does not matter what we are as long as we are happy. Happiness is a combination of things. It is a feeling of well-being. It is a feeling of sharing love, care and friendship. It is a feeling of confidence, knowing you can rest your head at the end of a day after giving your time in what form it was occupied your best effort.

I like to think I am happy. I reflect on what keeps me happy. Honesty does. I try to be like the three most honest men I admire, my father and grandfathers. When I was sent to Mac House with 70 other boys all starry-eyed and bushy-tailed, I had no friends, family or foes; it was the character of which my foundation is made that helped me through the five years. And it is the people I met who polished, chipped and decorated my character into what stands here before you. I would like to introduce to you the people of St. Andrew's College who molded my character the most. Ladies and gentlemen I proudly present to you the graduates of 1990. These young men are my friends, comrades, competitors and my class. Together we leave here to tread on new land, meet new friends and climb new mountains. But if any ill ever overshadows any one of us, we are a phone call away from the friendships which were created here.

It is a beautiful feeling of security.

On looking back at our final year of our high school careers, it can be stated that progress has been made here.

Our sports teams went from awful to good, good to excellent. The basketball team was a finalist in the I.S.A.A., our track and field team with our rugby team dominated the league. This strong finish will hopefully leave the younger grades and next year's graduating class with pride and experience to march our Saints in a triumphant 1991 season.

Academically, we as a school have shined. It is with great pride and respect in which we watch our Andreans be acknowledged for their efforts in sciences, maths, and arts. There are many students who with self-discipline and a helping hand from a faculty member have made great progress. For students who have made great progress without being given any form of recognition, please accept my congratulations, for you deserve it.

Yes, the school is progressing, academically, athletically, and technologically. This year we have seen the addition of three squash courts, a swimming pool, a computer networking system (which is the first of its kind in a secondary educational school); and an arts appreciation week called *Focus*.

Although all these progressions enhance the standard of education in St.

Andrew's College we must not forget the traditions which are the backbone of the college.

Chapel, the only place where one can sit and reflect quietly on the past or future. A prayer to your God in what form you believe in and the day unfolds itself before you.

Cadets, the one event the whole school participates in. A colourful display of military manoeuvres with a pipe band playing classic tunes keeps our school in a class of its own.

These traditions are ones which rival schools such as U.C.C., Ridley, T.C.S. to name a few can only try and imitate.

To the staff and masters who give their time to feed, repair, build, coach and teach, thank you very much.

To future Andreans, the key to success at St. Andrews is your involvement and commitment to the school, friends and yourself.

In conclusion I can only wish success to the graduating class and graduating classes in years to come.

R.Z. KHAN

Thank you Mom and Dad for giving me the opportunity to attend St. Andrew's College, something I can never thank you enough for. When you sent me to this institution your hearts were in the right place, your sacrifices were well worth it. Leaving negative aspects aside, there are a few positive elements at S.A.C. You mature and grow quicker, due to the competitiveness and S.A.C. food. I've also made some life-long friendships throughout my stay here. Thanks to Tariq for being there; through you I've found out what true friendship means; (same goes to Sheldon, Al, Mark, Brad, Rob, R.W., Matt, Marcus, Ted Thjis, Trev, & Geraint) thank you for your loyalty. Rashid & John thank you for sometimes being there, but I'm sure we've left our differences behind. A very special thanks to Mr. Foy for being a father-figure to me and one of my closest friends who definitely helped me make it through S.A.C. Thanks to Mr. Kinney and Mr. Walden for giving me their valuable advice, and to the female staff of the school for everything.

**NEXT YEAR:** I'm hoping I'll be at McGill.

## Michael L. Armstrong (1985-90)

It is true what they say about being able to look back and smile. For the past four years St. Andrew's College has been my home. I have been a part of it's many joys and it's many sorrows. After this year I shall never again be a student here, but I shall always be an Andrian. I came to S.A.C. as a boy but I shall leave it as a man. It has been through the grace of God and fate that I have developed clear eyes with which to view the world. Thanks to those who have, more than once, saved my soul: Jason, Rashid, Steve, Rod, Mr. Arril and Mr. Foy. Thank you all for helping me through the tough times, never asking for anything in return. Thanks to my family; for everything. Thanks Dad; your advice about staying (Fall-86) could never have been more right. To those who come after me, I can say only this, remember that those things that require the most effort are in the end the most valuable, that the intangibles of life, personal perseverance, honesty and above all kindness, are the real measure of one's success and greatness and that true strength comes from within your own heart.

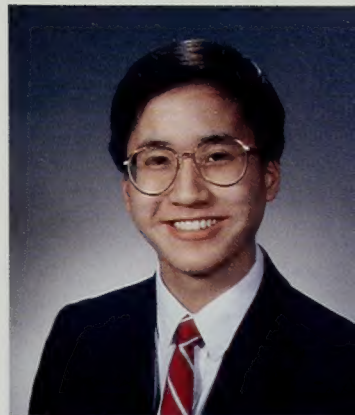

## Brian Andrew Chan (1985-90)

**NICKNAMES:** Chan Man, Chanster, Channy, Chanbo

**ACTIVITIES:** Cycling; House League; Expansion Week trip to Boston in 86/87, Built kayacks during Expansion Week in 85/86; Pipes and Drums(Pipes); 11 Rifles 86/87, 1 Rifles 87-90, Winner of the Lawrence Crowe Memorial Cup Medal for Rifle shooting in 88/89; The Improvement Prize to the boy who makes the greatest percentage improvement from June 1988 to June 1989; MacPherson House second class colours, and all the other events and activities that everyone else around here did or at least are supposed to have done.

Thank-you very much Mom and Dad for all your sacrifices and for your encouragement, help and guidance throughout the years. Thanks to Mr. Fred Hiltz my tutor for my five year stay here; Mr. Aubrey Foy my Housemaster for four years, and Mr. Ted Harrison and Mr. Mike Hanson the Housemaster and assistant

House master of MacDonald House during my first year here in Mac House. When I first entered this school in Grade nine, I was an extremely shy boy who just squeaked into grade ten. Now five years later in Grade thirteen, I'm still an extremely shy boy who just squeaked into a decent university. But in between I have learned a great deal, made many friends, found new hobbies, excelled in some new areas, and had many joyful and memorable experiences. Greetings to Gary, Jimmy, Jacky, Erik and Jessika. Best of luck to Jeff Hunt. I leave this school with the confidence I need to succeed. Where will I be in the next five years and what will I be doing as I look back upon this essay? Finally I get something I wrote in the Yearbook. How have I changed over the past few years? Some teachers noticed my shyness start to ebb away. My marks from Grade Nine have steadily increased an average of five percent a year. I leave ever growing, always changing. Hopefully for the better.

My life has been easy for me; the four years of learning and studying by myself have taught me discipline. Thanks to my parents (and my aunt!) for letting me attend this wonderful

school. I am glad that they did, and I love them for it. My brothers, Harold and Nelson, have also helped me and supported me through my four years at S.A.C. Harold was always the one in our childhood to open the path to success, and Nelson was the one who lead it to victory. Without my two brothers' guidance, I would be lost in the sky and have nowhere to aim for. I know I can fly higher than an eagle, but they are the wind beneath my wings. I would like to thank everyone that I didn't mention, like my roommate Jim, Rob, Ryan, Dave, MY, DY, other Chinese guys and the graduating class. Good luck to them and good luck to Manabu. Thank you to all my teachers, especially Mr. Foy. Bye and good luck to you guys out there.

Well, the six year cycle has finally come to an end; it is time to move on and meet new and different challenges which no doubt university will present. The S.A.C. experience has been a beneficial one and it is hard to envision leaving it after such a long time. To actually get the most out of S.A.C. one must put in a lot but in the end, the outcomes are rewarding. To Dad and Mom, thank you for this experience - I love you both; hopefully I'm a more enriched person after such a long time here. To my aunt and uncle - thank you so much for your support over the past six years; I don't know what I would have done without it. Lastly, to all my friends and people I've known over the past six years - I know after this year many of us may not see each other again but let's try to keep in touch and remember at least the good times we had together. Cheers! (R. Walker, RJ, TM, BG, C. Armaly, RK, TK, TS, GK, MY, TS, JB, Nic Dic, MN, SP, RA, GN, SM, DN, JM, Danny, MA. (Sorry if I forgot anybody)

Thanks go out to the Boys - Al, Jim, Marcus, Ted, Mark, Alistair, Rob and Matt, as well as my roommate, Dave, for putting up with me. These people have made my visit to S.A.C. a worth while journey. Above all, I would like to thank my parents for providing me with the opportunity to excel academically and for giving me the chance to experience what I have. Without you, Mom and Dad, I would have nothing. I now realize what you have sacrificed in order to send me to St. Andrew's. As for next year, I hope I'm back in the sun at FIU with Mark, chasing the women. Life's a long beach and we all must walk it; there are few stones which you may stub your toes on, but now at least, I'm wearing a pair of shoes.

**Matthew Joseph V. Harrison (1986-90)**

**SAYINGS:** Look! More letters from Danielle., Brad 25 dollars!, Guys come to N.B., Aw Mark!, Dave you're a T.A., Yes Chris I do get mad, Come lift weights with me, Marcus no work tonight.

After two years at S.A.C., I feel that I have gained much more than even I could imagine. Friends? Sure, I've met a few good ones. Sports? Yes, I think I've achieved my potential there. Academically, it's been challenging but beneficial. But there is something which I have learned that only comes with attending St. Andrew's College. This, I feel, is that you enter the world more prepared than the average person to face the challenges ahead. I know my future holds a great many things for me, and I have many people to thank for that. Above all, a thank you to my mother and father for this wonderful opportunity, I love you. Thank you Mr. Foy, for being a great Housemaster and friend. Speaking of friends, thanks to BG, JM, DS, MH, MMx2, ACx2, TS, MY, FP, Frank, Bruce, Andrew P. and Dave R. Best of luck to my brothers Mike and Rob, and sister Amy for the rest of their academic careers. Thanks for the memories.

S.A.C. is infinitely recommended over all public schools. The suit and tie are restrictive, but I think of the things S.A.C. offers that public schools never can. S.A.C. gave me the opportunity to see two excellent musicals - The Phantom of the Opera and Les Miserables. S.A.C. let me tour Washington and Quebec in two separate Expansion Week projects. The school introduced me to teachers who really care about your success and will help you with your failures; and my experience as a boarder has taught me how to take care of myself. In short, S.A.C. teacher you to grow up.

### Robert Owen Savage (1985-90)

**NICKNAMES:** Skip.

**ACTIVITIES:** House Captain, SAC Fine Arts Society President, School Photographer, Musical 4a, Musical Lead '90 "Sir", Co-Grad Editor, 1990 Year Rep, Founder of "the staff vegetarian lunch movment", Kayaking 3a, House Plays 4a, Drama Festival 2a, Debating Executive, Public speaking (Boston '90), Spain '87, Prominent moralist, environmentalist and turtle lover, Carol Service soloist 4a. Focus '90 contributor.

**SAYINGS:** "Wow man, what a drag.", "Hi-Ya", "But Sir, I really don't understand", "You have no brain.", "Jamie, you're so MEAN!!!" "I'm not naive, I'm just very optomistic", "Jeff, I'll see you on the farm."

St. Andrew's has lead me through the five most rewarding years of my life. I came to St. Andrew's with the attitude that I could do everything and change anything. I've become less naive and more prepared to face the realities that lie ahead.

Seneca. I Can't Tell the difference, Ed, can you tell the difference?" Five years! Five years I have spent at S.A.C yet every day was a new experience, or better put, A new dilemma. Yet looking back it has been worth it, from the education, to the numerous activities and unforgettable adventures. S.A.C has allowed me to participate in thing I never dreamed possible. For this reason I would like to thank all my teachers through the years especially Mr Foy, Mr Myrans, Mr Ray and Mr Bedard. Aswell Mrs Carson who help was invaluable with "The Saint" and "The Review". Of coure a Graduation comments wouldn't be complete without futher thank-yous' to my various roommates, Robb (A Future member of the Fortune 500), and everyone who has helped me in any of my unmentionable endeavors. Finally special thank to my Parents who sent me to Sac and all my Friends like R.K, R.S, E.T, T.S, J.M, R.S, C.C, B.L, W.D, M.Y, A.C, J.W, A.L, P.B who made goiing to SAC so enjoyable. Thanks.

St. Andrew's plus my innate talents helped give me the self-esteem that make me believe that I write professionally publishable stories. Self-esteem leads to a successful life for the person who refuses to give up. I won't owe all of my future success to this school; no one succeeds without talent. But I will certainly owe some success to it.

I have to thank St. Andrew's for the confidence it has instilled in me, as well as helping to order my priorities. I'm thankful for all the opportunities. My greatest thanks must go to my family who have always been there for me to lean on. Mom, Dad, and Mary-Beth - you have given me all that I have, and taught me the greatest lessons I'll ever learn; I love you. The most cherished memories will be the friends I've made; you are all the best things to ever happen to me. Jamie, Rob, Mike, Rashid, Geraint, Tariq, Will, Jim, Ryan, Todd T., Jeff, Shane, Mr. and Mrs. C., Mr. Raafaub, and everyone else (so little space). No matter how things changed you were there keeping me on the ground (Jamie), and on track (Rob and Will), I hope I've done the same. St. Andrews taught me to care more; to give, and thus receive; to be strong, but not to hurt; to be honest, and thus be trusted; to believe in myself, but not be vain; and to turn the other cheek. I look back in tears and look forward with a smile as I move outward one more time. "To all my friends", never lose sight of your goals or of the people and places around you; and never forget the sun also rises.

**NEXT YEAR:** Trent.

Life at S.A.C is what you make it. Yes it's true that once your behind is exposed, it keeps getting nipped at! The key is to play it smart and let the system work for you, instead of against you. I want to thank Mr.Foy for helping me understand this, and saving me from uncertain doom. Thanks to Mr.Ray for putting up with me, and giving me a kick when I needed it most, ALWAYS! Robo, you taught the best class I have ever been a member of; stay real and don't change. Kudos to Waldo for listening to me blabber on and on during class. The biggest thanks goes to my parents for making it all possible. You supported me these last six years, through good and bad times and I love you for it. Mom, don't worry, no more laundry or accidents, I promise. Dad, anytime you need to lend your car, I'll be there! Sarah, it's been real. Finally to undergraduates: DON'T EAT THE FOOD, IT MIGHT KILL YOU!

Life at S.A.C. definitely gets better as you move up in the grades. The memories and friends made going out at one in the morning will last a lifetime. I have matured a lot during my stay here and if given the choice again, there wouldn't be one; S.A.C. is where I would be. Many thanks to MH, SC, JM,

MH, TS, SR, PS for the memories and great times. I wish that we could all be at the same university to let the good times continue, and be able to legally do what we did. Living so far away from the folks has been a different experience which I'm glad I went through only once. It has been my substitute families which have helped me to retain my sanity in this chaotic world. Thanks to the three Khan's, my brothers during my stay; I'll always remember you when I'm more successful than you. (Just kidding, but I love you all the same.) Life at school would be unbearable without the caring and food provided by my other parents - the Khan's and the Creber's; their respite from school life was a great stabilizer in my life. I appreciate more now, the sacrifices which my parents made to allow me to come to St.Andrew's and I regret that they were so far away. Thanks to my brother for giving me a home and a bit of sanity during my sojourns in Kingston.

**NEXT YEAR:** DeVry, McGill, Queen's, UBC or any pharmacy school that will accept me (hopefully UofT).

Five years ago I came to S.A.C. hesitant and unsure. Over these five years I've been inspired and I have grown. It's hard to believe

it's finally all over and it is time to leave, yet it is. I leave with a mass of great memories. S.A.C. has shaped me and molded me; it made me a better person. To the many friends who were always there (yes, I remember, Sheldon) - thanks. You all know who you are. Mr. Raafflaub and Mr. Foy: coach (you got me started and you don't know what that means to me); and Housemaster; both friends, thank you also. I want to say to the Cutlers that you are fantastic people and I appreciate everything you've done. You really are great. Bobbi and Gary, thanks for the bed. Most of all I want to say thanks to Mom and Dad for giving me this opportunity and always giving their total support to me, in sports, academics and life. You gave it all to me. I love you both. Thanks, Mike, for the talks. I'm sure of myself now, and I'm not the kid I was when I first set foot in Mac House. I won't hesitate any longer. Now it's time to go, time to explore. Onward, outward and beyond!

## Edward Tan (1989-90)

**NICKNAMES:** Ed, Eddie, Eddys, Dreadie Eddie, Dreadward and other variations, Earl.

**SAYINGS:** "Will you stop mucking about?!", "What is it now, Tom?", "Steve, come in, feel at home, treat the place as if it were your own.", "What's (or Could you pass) that thingy over there (please)?", "It is/was far superior!" (in a French accent and partly copyrighted by S.R.), "I think that's immaculate."

**ACTIVITIES:** First House League, Musical, Debating, Cadet Stores employee (over-worked and unpaid, except for pizza and pop night.)

The first time I dined at the Great Hall on that not too distant September evening, I realized that I was in a unique community with established traditions and a distinctive character as endemic terms such as ER's, gatings, house captains, etc., all of which were foreign to me, were in constant use by my fellow diners. With time, however, I assimilated, absorbing these expressions into my daily vocabulary as well as fitting into the scheme of life at St. Andrew's. I now find the school year rapidly coming to an end and as I reflect on my achievements, experiences and newly acquired friendships here, I wish to say that I am appreciative to my parents for the opportunity they have given me to attend S.A.C. as well as to all my masters for the instruction I have received from them. If there is one regret that I have about coming to St. Andrew's, it would have to be that of not having come here a few years earlier.

### Robert Moffat Walker (1985-90)

St. Andrew's became my home in Canada for five years during the growing-up period in my life. I came here with a young and open mind and leave with many memories, both good and bad but all to grow by, opinions that make me what I am, and friendships that will last forever.

Our lives as "somebody" are just beginning, as is the chance for us to make a difference. I wish everybody the best in their pursuit to make the world a better place.

"This is for all the lonely people  
Thinking that life has passed them by  
Don't give up  
Until you drink from the silver cup  
And ride that highway in the sky" ...America

"When all the dark clouds roll away  
And the sun begins to shine  
I see my freedom from across the way  
And it comes right in on time..." ...VanMorrison

Thank-you Mummy and Daddy for giving me such an incredible opportunity. Thanks also to all my friends for making the last five years so memorable. I can't say I am sorry it's over but the experience was irreplaceable

This is the end of yet another chapter of our lives; it is time to move on to a new adventure. An old boy told me, "This place will stay with you for the rest of your life!" I would say that the happy times outweigh the miserable ones by far. Good times and good friends stay with you forever: mid-term break in Montreal was a great learning experience, thanks to M.G., M.M., T.S., T.F., F.P., E.J., Peel and Gert's. Besides good times, S.A.C. taught me the importance of being an all around person in academics and in everything else. These great memories would not have been possible without my parents' support, caring and sacrifices; this was the greatest thing which you could have given to me, and I love you very much. Thanks to those who tolerated me as a friend ... M.M., M.H., C.A., T.S., R.R., A.C., F.P., and most of all my roommates Mic-Mac, J.M. and A.C. The past four years at S.A.C. have had their ups and downs, sometimes more downs than ups. I guess this means that from bad things come good things. Most people start their comments by thanking the school; well sorry, not in this case. There are few people deserving of my thanks. First to my grandparents. Marc and Martin you both know, there's not much needed to be said, just keep your heads up! Mr. Robinson and Mr. Swan, there is nothing I can say, but thank you both and I'll see you next year at B.U., Ro. Steph, don't worry, I made it, you'll make it. "No more Monday nights for me (bathroom blues)" "Mushroom head (Armstrong)" "I'm not cutting my hair" "Fred, your socks smell" "JOEY, don't touch that, that's my geso!!!" "Keith why are you acheeseburger" "Riiiiiiight!!!" "Gundy go to bed" "Wilf are you a star?" "How's he Umpire!!!" "Ha HA got you last!!!"

St. Andrew's has been a chapter of my life I will not soon forget; I'll hold it with me always like a writer's favorite pen. The memories which will remain closest to heart will be the ones spent away from the classrooms, on the lower fields, in the residences, or down at the magnificent Mo. The time spent with friends made my stay at S.A.C. priceless. My greatest thanks must go to my loving parents who made my SAC experience possible. And as for the friends I made, I couldn't have made it without you; Wilf the best roommate Dinnick, Joey extra help Morin, Rob sleep in Innes, Ronny Teckno Kopas, Sean Q MacQuillan, Clay manager Moodie, Mike cheese Alexander, Trevor water pistol Golding, Adam bear harley riding Wharton, Chris crickety kick Blakely, Jimmy sweet cheeks Herder, John monkey man MacMillan, Jamie sucks Graham, John buffey Clarke, and of course Robo. This ends a chapter in my life, a chapter which at times was tedious, painful, upsetting, frustrating, and down right hell, but looking back now with it all behind me I can really say, I loved every minute of it.

My two years at St. Andrew's have finally come to an end leaving me with numerous memories I will never forget. I was very lucky to have been able to attend this institution thanks to the great sacrifices of my parents who paid the bills and encouraged me. Thanks also to my Housemasters Mr. Raaslaub, Mr. Galajda and Mr. Hanson for supporting me along the way and all of my friends for making the stay worthwhile and enjoyable. Check ya later fellers!

Seven years of experience will undoubtedly have its memories. In several years the few unquestionably good memories will last forever. Elvis Club - Skydiggers; "Dylan will always be King!" How grateful I am - "Girl'o'mine". Thanks to the biggest asset of St. Andrew's: my friends, Ronny and James, Matt & Nigel, and the boys from the mighty Q.

**ACTIVITIES:** I Volleyball (2a, Capt.); II Basketball; Study Squash; JA, Aurora bottle return club, Popcorn Committee, Pres., Spare First First Team.

**SAYINGS:** Something that would seem dated by the time this was read.

I have to be honest and say the the first thought of private school was not that appealing to me, but when I started looking around I knew S.A.C. was the place for me. After entering in September of '88 I was shocked at the discipline I was able to attain. Not only did my grades dramatically increase but my outlook towards school in general took a turn for the better. Sports, Cadets, and the many other facets of S.A.C. helped to enrich my life (boarding in Memorial didn't hurt either). I am truly grateful for all of the experiences over the past two years and I wish luck to my fellow grads in their future pursuits. A special note goes out to my mom and dad for helping me find my scholastic footing (and to Char for the encouragement). I am very thankful that you presented me with this great opportunity for a quality education. It won't be wasted. I love you.

Oh, I guess you expect me to write something like how ideal my time at S.A.C. has been and how reluctant I am to leave it. Well personally, I think that is a lot of bull. Nobody's stay at a school can be that great, it sounds as if they were advertising Club Med

or somewhere like that. Any longtime Andrean would agree with me in that it is not a smooth sailing here. Although I came here with mixed feelings and it has only been a year, for the most part it has been worthwhile and character-building experience. I have learned a lot not only in the classroom, but also on the playing field. (Maybe I'm saying that because as I write this Cadets hasn't started.) I would like to thank my family, my parents and my brother for their support although they were so far away. I would like to thank my Aunt and Uncle in Toronto. Also, I would like to thank Mr. Bedard, Mr. Arnil for their guidance and Mr. Raaflaub for helping me when I needed a favour. To all those who have helped me, THANK YOU!!

First I'd like to thank my parents for giving me the chance to go to this school. Thanks to Wendy for being there always. And thanks to all the teachers who helped me during my time at St. Andrew's. The most important thing in life is to have friends. During my time at S.A.C. I learned what friends were and how

to be a friend. Through good times and bad I always knew my friends would be there, even if I was the only loser. To Lush, whom I still think is a very wierd little boy, Johnny the Ape, Rob of horse legs, Wilf of Weston, Bagel of procrastination, Skip of naivete, Rashid, Rich, Crick, Mank, Armo and especially to my best friend and conscience, Steven Ross Creber aka. Mr. Perfect, "Hockey Head" and the parental wet dream; thanks it's been the best time of my life... so far!

### John S. MacMillan (1983-90)

**ACTIVITIES:** Head of House; Prefect; I Soccer, Capt.; Capt. ISAA Rugby Champs. These are my little big 4; as for the rest, you name it, I did it.

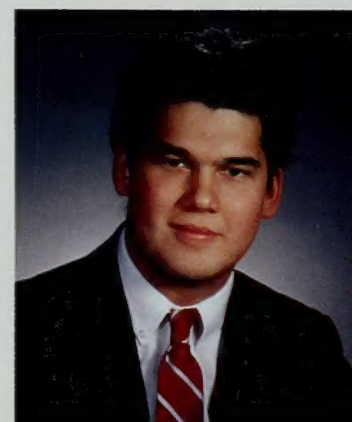

Many years ago I stood at the base of a very large mountain. Throughout these years I have climbed slowly up the paths and over the ridges. Many times I have slipped, sometimes I have fallen. But my enduring climb continued. On Prize Day, I will have reached the very peak of my mountain and in many ways I already have. At the peak of all our mountains, we the grads must jump, into the depths of life. We have not reached the end. We have only just begun.

In retrospect, I realize that I have no complaints. I have loved my stay here. I am leaving as the boldest of the bold, the proudest of the proud and the happiest of the happy. Firstly, I would like to thank Mr. Kinney and Mr. Timms, the two best teachers I have had in seven years; Mr. Swan, our best coach

yet; Mr. Robo for being a loyal and understanding tutor for many years; and finally, Mr. Fraser for being the only teacher to ever challenge me to excel. Secondly, my parents; their support, understanding, friendship, and love have been unending. Finally, to my friends; I will cry when we part and I will cry when we meet. You are my soul; these times are unforgettable. Two Jokers (His) roommate in Eng. (Blaks) for seven years, the Chap for Montreal and the Goat, to my Quad for 105 and next year, Creb for your stogies and cocoa, 4 for cards tonight?, Fred for Pauls and along 7 together, Stu for your neverending desire and Canadian, Shaw for your leadership this year, solid as a rock, Twins, I'll still whip you both, Skip, you're in a league by yourself, Dad for your directions in Eng. and being a loser. Heeb, the 9-10 connection and lethal weapon, Spaceman, don't get shot in Libya; Ren, Borse, Rollie, Arch for the years before and the years to come, Ottawa! Rashid, somebody had to be as messed up as me. Goodbye to all those we leave behind, pick up where we left off and enjoy yourselves.

Buff...Red Stripe, Appleton and Jamaican chicks are obviously the better choice. Tek hood! Goat night.

**ACTIVITIES:** Rasta, I do nuff tings.

My two years at S.A.C have been both educational and challenging and have played a crucial role in my intellectual and physical development. In my short tour of duty I have fought hard to overcome the seemingly subtle but realistic

stereotypical attitudes aimed towards my differing ethnic and cultural background. I can now honestly say that I have earned the respect of my peers, teachers as well as relatives and leave this healthy institution and environment of S.A.C not as a once timid and ignorant youth but as a confident and knowledgeable man. It is my deepest wish to express my unending gratitude to my parents and guardians who have made many sacrifices for me. To the posse: JD, TG, DC, SC, MJ, BL, MM, SM - we've all bounced island vernacular around each other which formed an impressive conglomerate language (luckily no-one understands us) To the Canadian Crew: MA, WD, MB, DD, SS, LG, AW, TR, RS, MP - respect. Thanks also to Mr. Raallaub for being a good friend, teacher and Housemaster as well as Messers. Swan, Hemmings, Robinson and Myrans. Friendship is truly S.A.C.'s greatest asset.

**ACTIVITIES:** II Football, Capt. (3a), S.A.C. in France, II Basketball, II Hockey (2a), I Lacrosse (2a), House Captain, French Club.

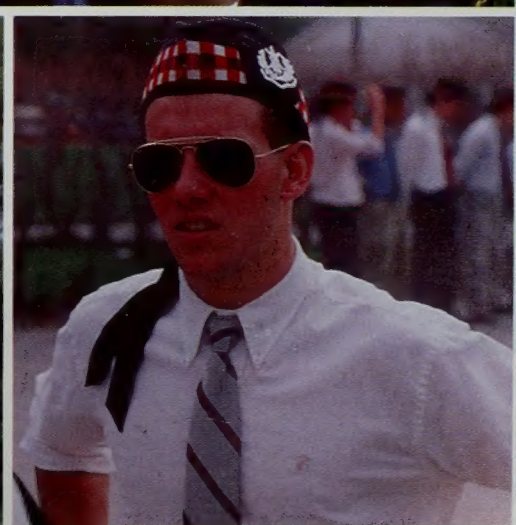

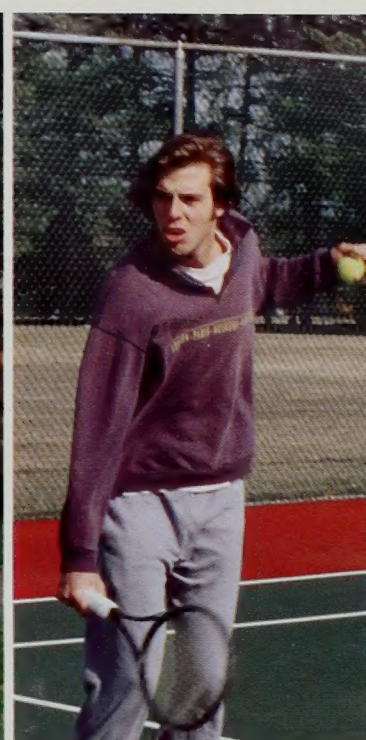

Writing - I've never been good at it. When I came to S.A.C. I couldn't wait to get out. But after surviving the first year (the trip to France helped), I settled in and learned the system. The friends and memories will last forever. France taught me about life outside a cushioned world. It is embedded in me. The staff at S.A.C. has helped build my character and has implanted in me all the necessary tools to succeed in life. Thanks to all my friends (esp. D.D., roommates J.W. and P.B.) who made my stay at S.A.C. an extremely enjoyable one. Many thanks to my family and grandparents who made it all possible. On Prize Day, when I leave the gates for the last time as a student, I will be leaving a special way of life but will retain three invaluable years that have been instilled in me forever.

Luckily, I have been able to rewrite my Grad comments due to circumstances beyond my control. I deem this a great opportunity because I am now a St. Andrew's Graduate with a much different view of the school. In my first draft, I had a

very terrible taste in my mouth about the school and the politics surrounded it. Now I gaze back and only see the good times of the Goat, or the sensation of winning the Rugby championship. The friendships that I've made over the last five years are a solid backbone for the rest of my life; thanks to RG, SC, JG, JM, TK, GK AND RK. And a special thanks to Shep who put up with me. The most important support I received was from my family; they were behind 100% especially in all my times of need. Mom and Dad, I couldn't have done it without you; I hope I have made you proud.

Well, after five years, I finally get a chance to comment on S.A.C. academically, socially, and gastronomically. It took me a long time to learn, but S.A.C. is not just a good school because of the academics. Far from it. It's everything else the school has to offer: the friendships, camaraderie, sports, and other extra-curricular

activities. One thing I really grew to appreciate is the amount of time the teachers here are willing to give up in order to help you, like Mr. Treasure, Mr. Inglis, Mr. Stuart, and most especially Mr. Hiltz, who is always here, available, and willing to help. I'd also like to thank those guys who made life here somewhat human and bearable - TS, AL, RS, TP, HS, and BL. However, what is the use of Grad comments if I cannot thank the two people who should be truly thanked. They are the ones who made my life possible. These two people, of course, are my parents. Thankyou for everything, Mum and Dad. Without your love, guidance and encouragement, I never would have made it.

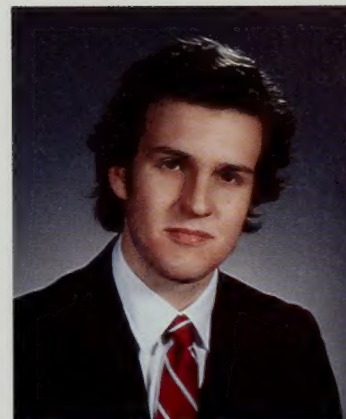

NEXT YEAR: Astrophysics at Queen's or computer game testing

### Roderick Gordon Christie (1985-90)

There are accolades which I could heap on some and epithets which I could hurl at others, but this space is one for neither gratification nor is it one for vilification. It is more of a time for both conjecture and reflection. There are quotes which I could cite to impart to the reader some sense of who I am, but this is divergent. I could digress into anecdotes of machinations and escapades past, but this is a purile and eclectic habit and leaves the reader with a sense of despondency with having not been able to take part.

I would, however, like to debase myself in light of my previous comments and wax nostalgic for a few words. Thanks go to my mother and father for the usual and whatever else they may have thrown in along the way. I would like to mention this institution, which has, for the better part of five years been an intrinsic part of my life. Thanks also to people who were there for me, especially when I wasn't.

Even though this is now the first step to a brighter future, memories and friendships still remain. I would like thank both my friends and family who are closest to my heart, for their support over the years. S.A.C. is definitely a wine worth savouring and I enjoyed drinking it. I can only look forward now to a life full of lasting experiences and it is with this outlook that I leave. Stay with your dreams; never let them die!

Hunger only for a world of truth, Hunger only for a taste of justice Don't you eat of a bitter fruit Don't be tempted by the shiny apple Your devils or your gods Who will come to find you first Which way do you turn What is at your back The road it cross you down Standing at the point B'cause all that you have is your soul. Tracy Chapman

It is an environment full of friends and I have a few to thank for making my years at St. Andrew's the greatest. First of all a thank-you to my parents for the opportunity they gave me and the faith they showed in me. Thank-you Mr. Smith, Mr. Meagher, Mr. Josselyn, Mr. Hanson, Mr. Myrans, Mr. Harper and Mr. Arril for allowing me to achieve my potential and supporting me. Thanks also to Will (a true friend), James (a SUPERIOR buddy), Bruce, Kent, Ted, Fergus, Jim, Mark, Andrew, Matt, Dave, Craig and Mike. Good luck to you guys. You're the best, let's do it again sometime. Be sure to look

up "ED" whenever you pass through HOLT5 Some will look back and see S.A.C. as a fine institution for learning. As a place where the academics spurred them on to bigger and better things. Despite being a great school for learning though, I will not remember S.A.C. as this. SAC is screaming and jumping on the ice at the MacPherson tournament, playing cards on a road trip with First Basketball, sharing a joke in World Religions class, sitting in the stands watching First Football at Homecoming, soaking up the sun at Mayfest, and gathering for the daily meeting of The 34th Division Calculus Crusaders.

**NICKNAMES:** Chevy, Chevrolet Man, Manny, Bruce  
**SAYINGS:** "Things are gettin' delirious!", "Spill all the beans.", "Go Crazy!", "It's that time of the month."

Going through the rainy days, bic-pens, and chapel sermons was not all that bad after four years at S.A.C.; it wasn't all roses either, but the greasy-spoon meals help you forget the worst of times. It was really the fantastic people whom I call Mom and Dad who kept me on track and prevented me from reaching immorality; I love you both and I mean it. Cheers goes to all the teachers,

especially Mr. Timms and Mr. Somerville, who are two men I have the utmost respect for; thanks for the patience and advice - the cheques are in the mail. For the colourful, and intriguing friends I've made, thanks for all the pep-talks, lunches, lacerations and laughs; I wish you all good-luck on your future goals and ambitions. St. Andrew's, give yourself a pat on the back; you didn't rough me up too bad, and you were pretty funny at times. You've gained my respect.

**NEXT YEAR:** It better be good.

Jay Robert MacWilliam (1983-90)

Marlow Kurtz entered the room with a bang, looking the three kings over and fondling his mop. Getting down to the source of things, he proudly boasted: "There is a creeping consumption in the land. It begins with these three fellas and it travels outward. Never in my life have I seen such a motley crew. They ask nothing and they receive nothing. Forgiveness is not in them. The wilderness is rotten all over their foreheads. They scorn the widow and abuse the child but I am afraid that they shall not prevail over the young man's destiny, not even them!" Marlow turned with a blast, "Quit Ye Like Men Be Strong or come ye no more!" St. Andrew's collects young fragile brains and molds them to the proper ways of society. Pushing a mop is not in a

Andrean's repertoire. However, skills of well rounded knowledge, a warm soul, and a drive to never stop until one has consummated their enclosed goals to the fullest will be branded into the unsuspecting youth. But again as we think of a life in progress the only basic ingredient is happiness. So as a closing note to the student body, if your job is dishwashing or Prime Minister of Canada just be happy doing it.

**P.S.** A long and dear thank you for the support of my parents in sending me to this institution. I am forever in your debt.

**NEXT YEAR:** I CAN'T WAIT

**P.S.S.** IAN DON'T! AAAAAHHHHHHHHHHH!

Todd F. Pepper (1983-90)

**MEMORABLE MOMENTS:** The first MacPherson Tournament is undoubtedly the most memorable moment in my S.A.C. career. I remember during that first Friday night game the crowd was silent (compared to other more recent years), until that first goal was scored. From then on the crowd roared as first hockey played on to win in overtime. In the seven years the MacPherson Tournament has existed we have never been defeated during that Friday night game, and I believe we never will be. So, why not play against Nichols next year?

**THANK YOUS:** I'd like to thank the following: B.C., S.P., R.S., H.S., M.Y., C.C., and A.L. for their encouragement and the time we spent on the phone helping each other with homework and assignments. Thanks to D.A. and K.T., my Lacrosse buddies, and Mr. Rush and Mr. Cowell. Special thanks to Mr. Robinson for looking after me during those first three years at S.A.C., and to Mr. Somerville for the last three. Most importantly I'd like to thank my mother. It would simply be impossible to explain how deeply indebted I am to her. Without her sacrifices I would never have had the opportunity or the privilege of attending such a fine school as St. Andrew's. **THANKS MOM!!**

Well, here I am, writing my grad comments the night before they're due, as with all other things. Where to begin? I've been at S.A.C. a very very very very long time, to say the absoluteleast. I've seen wrestling and leather ties come and go. But now the time has come and I must face the final curtain. **SORRY** it had to be said. I came to this school and gained all I could from its coffers of knowledge. Now I move on to University with no trepidation, having been given all I need and more to deal with what lies ahead. I must thank all the staff for this. However, Mr. Raaflaub, Mr. Myrans and Mr. Treasure deserve a special mention for their teachings which have given me the confidence to enter university so early. But, most importantly I wish to thank my mother and father. They know why.

Patience is a tree  
Where its roots are bitter  
But its fruit is very sweet ...

This small poem drove me half crazy back in elementary school, because one, I heard it almost every day, and two, I never really understood it. It's only now as I sit here and write this that I finally see its value. If there is one thing a person must acquire at St. Andrew's is patience. The bitterness may come in time, depending on what type of person you are and how long you've been here. The important thing is that through thick and thin, S.A.C. has, and will, always provide an atmosphere where its students can learn and grow, and reach an academic level such that they will know sweetness the rest of their lives! (Nice one, eh?)

Thanks to the guys and teachers that kept me patient enough to get to this stage, you know who you are. And to Mom and Dad, I love you both very much. If it wasn't for your vast support financially and emotionally. I wouldn't be where I am today. I hope some day, I'll be able to pay you back.

Well, it's finally here, my final year at S.A.C. It has been a tough five years but I survived. Through all the cross-country runs, the Carol Services and the Cadet Inspections and sacrifices to the Bone God (thanks Haroon), I made it. I will always remember what it was like to be a true Andrean. But the time has come to move on to university, to the working world; who knows what the future will hold for all of us. I hope, next year, to go to university; maybe Western, maybe Carleton, maybe Lakehead (????, nah). Well, off to the real world I go; 'bye S.A.C. I entered Grade Nine as a rebellious student. Unfortunately, I was the same student in Grade Ten. In Grade Eleven I finally accepted my role as an Andrean, but still screwed up.

In Grade Twelve I became proud of my status, and now in Grade Thirteen, I wouldn't have it any other way. Thanks to Mr. Somerville for buying me a new alarm clock, and to Mr. Stuart for showing me where the chapel is. I must apologize to these two men for having to put up with my perfect punctuality. Thanks to my best friend, Bruce, for helping me get through the years; (you know you really shouldn't bug me so much - you'll probably work for me one day). Thanks to the Headmaster for taking the time to listen and to Mrs. Osmond for phoning my house every day for five years to see if I was coming in to school that day. My final and biggest thanks go to my parents who have almost literally put blood, sweat, and tears into my process of becoming a responsible, intelligent young man. I know sometimes that my future has looked bleak, but I think I have broken through the darkness. I love you both very much.

Don't sit back and take S.A.C. for a ride; believe in yourself, make a commitment or be condemned to mediocrity. Thanks to St. Andrew's for giving me spirit, tradition and pride. I've enjoyed learning what it takes to acquire these qualities even if it meant graciously accepting defeat or killing Trinity, Upper Canada College or Crescent in their home gym. Becoming part of the "family" at S.A.C., no matter how reluctantly, whether it be in the classroom, playground or out of class, will always remain special to me for the rest of my life. For five years I have been thinking of words to put in this space, but now I am having trouble picking the right ones. I must say that I am fortunate for experiencing S.A.C. for it is

now a big part of my life and always will be. Over the past five years I have learned a great deal about pride, leadership and most of all friendship. Many thanks go to Mr. Walden, Mr. Kinney, and Mr. Kimmerer, for being masters who care and understand. A special thank you to Mr. Herder who taught me what S.A.C. was really about. And to "the Boys", Jamie, Lush, Cheetah, Khaner's, Giller, Rob, Mike, Manker and Jimmy - thanks for all the laughs and good times that can never be erased. Finally, the biggest of thanks and love to Mom and Dad, for running the weekend drop-in center, and being so supportive. Without you none of this would have been possible; I don't know if I can ever repay you. To all the people over the past five years, thanks for the good times; that's what I live for.

**Ian D. Cruickshank (1985-90)**

Well there really is not much to say. Importantly, I must therefore assign my thanks to my mother and father, to whom I owe my greatest appreciation for enrollment at S.A.C. Appreciation must be served to: The Jaybee, Scotty Wotty, Frodley, Brucie (not the teacher), and Grant-Buh. Cheaphead, I hear he has a firearm by now, will enjoy his summer, and I sincerely hope the best of success for him in his Law Enforcement career. Thanks to all. I wish I had more to say. S.D.I. has long since gone into receivership, and insiders say, may fold in the ensuing supply shortage. The darkroom bros. will be remembered for their contribution to the flood of material exuding from the room. House League will not remember me, nor will Cadets, for that matter. I will always remember the efficiency that St. Andrew's operates at, and will use this in future, as possible reference, to avoid. It is with great pride that I graduate from this institution,

and hopefully my achievements here, although usually "unsung", will not be forgotten. Sports were important to me in some ways. This may come as a great surprise to many. But, for example, who invented hallway lacrosse, or indoor golf chipping... We all enjoyed our after lunch foray into the world of insanity with these such sports. If fate, and my teachers, are kind to me, I will journey to the land of higher education, to seek a document called a degree. Once captured, I will journey to a land of higher earnings. Next year the party begins at Guelph or Western. Finally, as I have come to the end of nothing of which I had to say, I will now ponder the possibilities of university life, and what it has to offer my sense of adventure and risk. To all those bold men striving for the elusive BMW: Cut thy bureaucracy, and thrust forward thy knowledge. Quit ye like men, Be strong. I shall now conclude the usual droning on of the otherwise tedious grad comments. Honest, I really had nothing to say.

When I first passed through the gates of St. Andrew's I was a young boy far away from home and very unsure of my new surroundings. Now I leave as a young man enriched by these years at St. Andrew's, enriched through the academics, sports, and other activities at this school but most importantly, by the

friendships I gained here. Friendships with bonds that may never be broken; friends who will continue to support me as they did through the years of St. Andrew's. I have always been proud to be an Andrian and I would like to thank all the masters who so confidently coached me through the good and bad times. Most importantly, I would like to thank my parents for giving me the opportunity to attend St. Andrew's, a debt I can never repay. Also I would like to thank my two sisters and my good friends T.R., J.P., T.M., and N.E. Thanks to this glorious insitution which broadened my horizons for the future.

**NEXT YEAR:** I'm runnin' for the hills.

Looking back over the seven years that I have attended S.A.C. I realize that I could not have made it without the support of some very special people. Every member of the faculty at S.A.C. has always been helpful, but there are certain individuals to whom I must give special thanks. I would like

to thank John and Lee Clements for giving me the opportunity of participating in their wonderful, although sometimes trying, productions. Thanks go to Mr. T for his patience and humour, to Mr. Bedard for his understanding, and to all my teachers who gave a little more of their time to ensure I had an understanding of their course and an A+ to Mr. Inglis anyway for trying so hard. Due to the constraints of space, I cannot give thanks and good wishes to all the friends that supported me in times of distress. All I can say to all of you is, thank you, for everything - I will never forget you. The gratitude I have expressed to all of my teachers and friends will never be able to equal the thanks I wish to give to my parents for giving me this wonderful opportunity and for putting up with all of my idiosyncrasies. I love you and I hope I have met all your expectations.

**NEXT YEAR:** U.W.O or McMaster. (I can't wait!)

My career at S.A.C has been an interesting and at times a trying experience. When I entered the school way back in Grade Eight, I already had a reputation. Unfortunately it was a notorious one. This may have had something to do with my two brothers'

previous years at S.A.C. But thanks to a few teachers whom I had on my side, namely Mr. Whitehead and Mr. Hanson, I managed to "wade out" the flak I received. I almost ended up leaving S.A.C in Grade Nine or Ten, I really can't remember, but the point is I stayed and you know ... I don't regret my decision. I came to realize the benefits S.A.C. had and in a strange way it did change me for the better. Thanks to all the friends I made and the good times we had. I really don't want to name names in case I forget anybody, but you know who you are. Also thanks to my Mom and Dad. Even though I think you guys are nuts, I love you anyways.

## Jason T. Palmer (1988-90)

**SAYINGS:** "Yeeeeeesss!", "Boy, aren't I!", "It's just a quagmire..." "Yes, Tobe...just a Walker-wanna-be", "Yah, okay whatever", "Ahhh...sick!", "Sue will get us through!"

Cadet unit; the Great Brunswick Video Seminar in G.12 accounting; Rod's XXXL t-shirts...

Two years at St. Andrew's may not seem a significant amount of time to those who have been here for six or seven years, but it has been enough time to allow me to begin formulating

critical ideas and expectations for my future. Through the guidance of many of my peers and masters I have been given the chance to truly enrich my life and prepare for my years to come. Thanks are due to all those who have touched my life here at St. Andrew's. To all my friends, may we never lose touch for friendships like ours are, unfortunately, few and far between. My parents receive my sincere gratitude for having the foresight to enroll me here at S.A.C. and the patience and guidance to lead me through all the years of my life. Finally, as I see my stay at St. Andrew's drawing to a close, I can't help dwelling on the great times I've had in and out of school in the past years, and feeling confident that my experiences and friendships will prove to be invaluable assets to my future career and life.

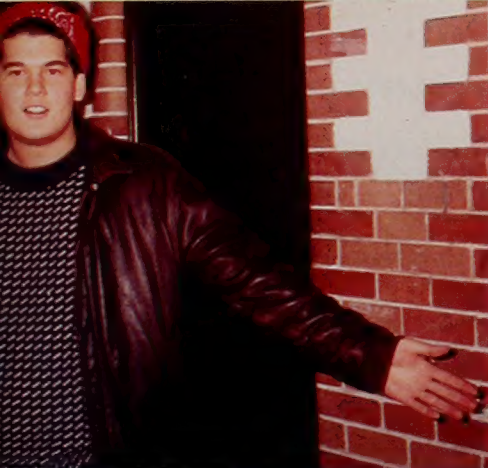

**NEXT YEAR:** I'm with you Barcs.....run to the hills.

Seven years ago, on a cool foggy September morning, I was driven up the driveway by my parents to a place that would become my home for the next seven years of my life. It didn't take long for me to settle in with the help of my new friends. I've learned as much as I could in this school and I hope it will serve me well in the future. There would have been little hope of me surviving if it hadn't been for my friends. They are too numerous to name but they know who they are. I would like to thank the teachers who made my stay at S.A.C. enjoyable. Most of all would like to thank my parents for making the sacrifice to send me to S.A.C. Thank you I love you for your support in the bad times and praise in the good. Thanks Mom. Thanks Dad. Leaving this school will probably be one of the hardest things I will ever do in my life but after I leave I will be able to look back at things I've done with the friends I've made. It is only fitting that after arriving at St. Andrew's on a cool foggy fall morning that I should leave on a warm sunny summer afternoon.

Five years have passed (just in case you haven't mastered the art of subtraction) - the time has come to finally leave the over

accustomed safety and security of St. Andrew's. All my experiences at S.A.C. (both the enjoyable and character building ones) have each in their own special way prepared me a little bit more for what lies beyond the hallowed halls and yellowed walls (the bathrooms) of this school - LIFE! My metamorphosis would have been rather stunted however if not for the influence of my masters, friends and family. Special thanks go to Mr. Robinson, Mr. Josselyn, my friends (I know who you are, you know who you are, so I didn't use any tacky initials), the Herders (I hope one day to somehow repay you - especially for the dent in the car), the Innes', the Armstrongs, and of course my loving family (pretty sickening stuff isn't it?). In other words, thank you St. Andrew's: I leave this school with the utmost confidence and keen anticipation for the future.

Even though I've resented being here at times, I thank my parents and grandparents for seeing me through the hard times, and supporting me in the activities in which I took part. I'd like to thank my friends for their support and fellowship which created the good times here. Mike, Mike, Adam, Rob, John, Dallas, we've been through a lot; let us not separate at Prize Day. Four years of S.A.C. has left me with a new outlook on life and perhaps scarred me for life. This school is very weird, just take a look around. It was a terrific experience with many good times as well as a few bad ones, which are soon forgotten thanks to my friends. I Hope Mr.Robo has another interesting batch of Grade 13's next year.Thanks to all those involved in delinquency at school over the years. Thanks to those who were there when I needed them, and when I didn't (Chris, Mark, Ferg, Ted, Sheldon, Jeff, Matt, Jim, Marcus and Mikmac). Good luck in the future; hope things work out. Friends will come and friends will go but the memories will stay forever - Gill's philosophy. It is friends that have made my two years at S.A.C. so bearable and even exciting at times. These friends have had a significant effect on my attitude towards this school and have enabled me to express myself more fully. So what have I gained except a few credits on a piece of paper? One thing it has taught me is that nothing in life is free, everything has a value. A number of people have been of great importance to my success at S.A.C.. My parents have sacrificed a great deal to send me here and I am grateful. Mr. Robo has been an understanding Housemaster, coach and a good friend and I thank him dearly. To my friends whose memories will stay forever, Mike, Buf, Giles, John, ..., I'm sincerely grateful.

### Ronald C. C. Lo (1988-90)

**NICKNAMES:** Lao-lao-lao, Ronlo.

**SAYINGS:** "drop school"

Being in this school for two years, I have changed a lot. I realize that it really pays to increase one's knowledge. Here, all the teachers are always willing to help, all the computers are in excellent condition, everything looks perfect. In addition, this school has a lovely environment. With all of these, I don't think anybody would have any regrets in attending this school. The most important thing that I got during these two years is probably friendship. I have gain many valuable friends, who can share my happiness and sadness. Those people are Victor, Kelwin and Tim. Thanks very much, I would like to see all of you in the university next year.

My six years at S.A.C. were interesting to say the least. I arrived a vulnerable, insecure Grade 8 who was way too tall for his age. Now I leave sure of myself and way too tall for any age. S.A.C., and boarding in particular, shaped me in a more positive way than I would have ever imagined. I'd heard my old boy father say it was a terrific experience but I never really understood him until Grade 11. The S.A.C. staff has also brought people into my life who I will never forget. To Juice: thanks for three years of friendship and coaching. To Robo: thanks for showing me that being myself is what is most important. You're the most understanding and concerned guy. S.A.C. brought a lot out of me in academics and sports but, more importantly, gave me the friendships that will always be with me. Thanks to Mushroom, Belly, Bob, Jeff, the Infamous One, Matty, Ferg, J and Crebe. Sorry if I missed anyone. Good luck next year Colly and Bro, you'll do fine. To save the best until last, I thank the two most important people in my life: Mom and Dad. Mom, without your support and love I wouldn't have made it. Dad, thank you for this experience. I hope you're as proud of me as I am of you. Don't you think we need a new gym?

**NEXT YEAR:** The Bishop's Experience

Seven years to fit into 250 words. I can honestly say that my time here was enjoyable as well as a pain in the neck, but I thank both my parents for giving me the chance. I'd also like to thank all my weekend mothers because without them I'd be twice as crazy as I am now: The Crebers, The MacMillans, The Blakleys, The Gundys, and The Sweeneys (even though they don't know it). To my friends: let us go out and look back on the times we've had. There is no place like home, except S.A.C. on a Monday night. John, Rob, Steve, Rashid, Jamie, Chris - you guys know me the best, and we got the most (maybe thats why); let's not let the good times end. To the rest of my friends I hope you remeber me, because I'll remember you. Give me a call.

I'm going to miss the Art Department of S.A.C. It was the place where I first learned how to paint properly, and it certainly has changed the rest of my life. I've really learned a great deal about myself during the four years at S.A.C. (as reflected in my 25 self-portraits), especially the weak and negative side of me. Myspecial thanks to Mr. Paolini, my tutor, who has been supporting me in times of crisis. Many thanks to Mr. Timms, Mr. Hiltz, Mr. Raafaub, Mr. Inglis, Mr. Jones, and Mr. Arril for their guidance in this crazy final year.

## Mark C. P. Major (1986-90)

After five long years at S.A.C., I can look back and say it was truly worth it. The best things about S.A.C. are the friendships that I have made and spending time with my brother, Rory. Living in Sifton House has taught me to be the best I can be. Thanks has to go to Mr. Robinson, my Housemaster, all the guys and finally my family, for giving me the love and opportunity to gain so much.

St. Andrew's College is unique in that it provided me with an environment in which I could succeed. My former public school couldn't give me the opportunities to display leadership. S.A.C. taught me self-discipline, or more accurately, it gave me the opportunity to learn self-discipline. For that I am thankful. Although Sifton House can be fearfully slack - its the pleasure pack of business and pleasure. S.A.C. also gave

me the opportunity to create friends, real friends. Reflections of playing cards with a precious few at 3AM by a winter Flavelle fire are times that can't be compared. Only a boarding environment can offer that. I want to thank my parents for giving me these opportunities and putting up with the monthly bills. I feel they know but 10% of my whole life at St. Andrew's yet for me it has been the most developing, productive and enjoyable two years to date. I also want to thank my Uker buddies, my fellow Goatherders, Mr. Robinson and Skip for making my life here complete. To Michelle, through thick and thin I have no regrets. To Susie, You were right! We did wait "The longest Time" but alas, now "Heaven can wait." Your an inspiration to me and I love you for that Susie-Q. I'm looking forward to the "Picten Adventure Co." Whister in '90? Two years was the optimal amount of time for me. With an acceptance to UBC and a family move to Southern California, life again is on the up-swing. I wish all my friends the best in their goals and aspirations but remember to take the time to watch the sunset.

ACTIVITIES: Basketball; Football; Pumping Iron; Metal Concerts; Chicago '88 and New York '89; Sleeping; Rastlin.

Well, I finally made it. It's been a long, but interesting, five years. By writing this grad comment, it signifies the end of my stay here at S.A.C. Firstly, I've got to thank all the friends that I made here. For the sake of not forgetting to mention everyone, I will not write down any names but they know who they are. I like to wish them all the best of luck in succeeding in their careers. Secondly, teachers have my thanks and respect for their commitment and effort in helping the kids here, especially Mr. Harrison for being my tutor and a good listener. Lastly, but most importantly, very special thanks go to my parents for giving me an opportunity to come to S.A.C. Not only has the school helped me prepare academically, it has taught me many lessons that I shall never forget; things like laziness and disobedience will not help my career in any way.

The last seven years of my life have been given to S.A.C. to mold. The influence of my friends and family is what saved me. I'm glad my fond memories created here will always outweigh the unpopular ones. Through these memories of victory and defeat, joy and pain, humour and sorrow, I've acquired a sense of growth and knowledge. Success in the future is inevitable if these lessons are manipulated properly.

Above all others the three most valuable pieces of advice I can offer are:

1. Opportunities are there to capitalize on.
2. S.A.C. is like a bank - you get out what you put in. But when you put in, your personal wealth will grow, only if interest is involved.
3. Don't eat the soup!

To my friends, you know who you are. I'd like to say thanks for the support you've given to me and strength you've instilled in me. I'm still looking for a way to thank the Herders and the Shaws enough for their hospitality. I hope we keep in touch. Thank-you Mom, Dad, Heather and Maureen for all the encouragement, reassurance, and confidence that you've trusted me with.

Someone asked me what I thought of S.A.C. and I simply replied "I". What happened to time? Towards the end of the school year, it was going faster and faster. I had to hold on to every second so that I would not be thrown off the tangent. There was just so much to do in so little time. Yet, surprisingly, I could still find time to write this comment! My final year was just great. Never have I been so proud of a school and never have I been able to make someone smoke a rolled up magazine. You know, there is really a lot to do in Grade 13 and there is also a lot you don't have to do like skipping chap... (Oops! Slip of the tongue!) Anyway, good luck to everyone and many thanks to those, including my parents and my sisters, who deserve them.

The S.A.C First Football team began the year with a good starting core of key players. Led by the great football veterans Scott Bryk, Jamie Graham, Rashid Khan and Steve Creber, the team headed into the season with high hopes of continuing the long line of victories established by the Ackerman coaching staff and the Saints over the past few years.

Alas, the team ran up against some extremely tough adversaries who, in addition to looking worse than we did, also played better ball. Several narrow misses in close games at the outset of the season began a downwards trend which proved simply too overwhelming for 'Killer' Khan's tackles, 'Clean-cut' Creber's blocks, Graham's rolling rover action, 'Horse-legs' Martin's runs or even the Bryker's mighty play on "O" and on "D".

Next year's team has a tough job cut out for it. Best of luck to all the players as they continue the pursuit of excellence in the wonderful game of football.

S. Bryk, Captain

This year's U16 Football team had a very successful season finishing with a record of three wins and a tie with only two losses. This record is particularly impressive considering our relative lack of size and experience compared to our four opponents. The junior side proved that a well prepared, motivated and disciplined team can always rise to a challenge. In the process they provided some of the most exciting football seen at SAC this year.

The team excelled defensively, and with the exception of a blowout at the hands of a superior TCS team, we held out opponents to an average of only 7 points per game.

Our leading scorer, Brian Spence, shared MVP honours with Steve Heron, a co-captain and standout on defence. A first year starting tandem of Chris Thompson at centre and Mike Lamb at quarterback provided the team with steady offensive power up the middle, while defensively Bruce Lopez excelled in his first year of football at safety. A strong defensive line was led by Torin Buzek and MIP Jayson Mulcock.

The coaches would like to thank the entire team for a very enjoyable season. With several of this year's team returning next season, the U16 Football future at St. Andrew's looks very bright indeed.

After First Soccer's strong finish in the Ridley 'early bird' tournament, both coaches and players were hopeful for the upcoming soccer season. The potential was there! The first two games of the regular season reinforced the idea that this could be the year with wins against Pickering and Appleby Colleges. Our defense, Jim Mirkopoulos, Nick Rose and Jason Palmer, provided sound backing, strong support and free advice to any official whether he wanted it or not! We were strong through the mid-season although our striking force was weak - 1 win, 1 tie and 1 loss. The team suffered several injuries at a tournament held at Lower Canada College in Montreal and despite the best efforts of Entertainments Director Richard Gill, we would have to finish the season without our best striker, (and MVP) Mike Alexander. Despite the team's best efforts, a loss to Hillfield eliminated our last hopes of a playoff spot. Hillfield was to eventually win the ISAA championship. The MIP for the season was Adam Devita. The team thanks Mr. Robo and all the assistants for their time and effort.

This year, the U16 Soccer team finally found its way to victory. For years we have breezed through the season undefeated only to lose in the final game. As usual, we got the typical yawning sessions - beating UCC 11-1 or Ridley 10-0. As best as I can figure from our helpful manager, Bernie, his extensive but elusive to understand statistics show we scored some 72 goals, with help from Armstrong (22), Mark (Shilhog) Shillum (16) and Fraser (13). Even the defensively-minded Worry deftly put a goal in Hillfield's net.

But this year we figured out that during every final Father Fate got jealous of Lady Luck and Sister Skill and at his last chance, wrenched the victory of the final game from our deserving hands. This year we lost some pitiful game during the year to satisfy Father Fate's dark lust. Just to be sure, we tied one as well. Then on the day when it finally mattered, we could easily walk away with our unhindered victory and sneer in his face. His forces must have been cancelled by one greater than him - I suspect we owe it all to our spiritual leader - Arrow.

Contrary to everyone's belief, Cross-country running is an extremely tough sport, especially under the expert training regime of Mr. Grenier and Mr. Wenk. That is probably why we had such a dearth of senior runners! Although we didn't have the quantity of runners, we did have the quality. The beginning of the season was the most challenging; later on, it was highlighted by the team's constant improvement.

By the end of the season, our strongest runners really showed their ability by placing very respectably in OFSAA; congratulations to Randy Tsioros (MVP) and Ian Michael. Not to be forgotten are all of our team members who, like Kyle Brown (MIP), put so much effort into this sport. Thank-you from the whole team to Coaches Grenier and Wenk for their excellent training, encouragement and team spirit.

Patrice Bansa, Capt.

This year was a fabulous year, but at the same time an experience building year for new people on the team. The midget team (U15, U14, & U12) had an exceptional year; honourable mentions go to Ben Rough, Steve Lewis and Dave Michael who placed well for the school in most races. Next year's team will hopefully win the ISAA championship which was narrowly lost this year. The majority of the team qualified for the MIP award by the end of the season. I would personally like to congratulate every member of the team and hopefully be able to welcome them back next year for another great season!

## Senior Volleyball

Neither team covered itself in glory this season. Many of last year's players had either left or taken up a different sport here, so there was a lack of skilled replacements at both levels. Much credit is due, therefore, to those who turned up to practices and who brought along other players, some of whom found a regular place on teams!

Both teams had their moments of glory, even against such powerful opposition as Trinity and Upper Canada, and we won some of the inter-school matches. Whatever the results, all players showed improvements in individual and team play and had a great deal of enjoyment.

My thanks are due to all players and especially to the respective team captains, Dave Dupuis and Marcus Yang, who did a great deal in stimulating team play. At 1st team level, Tim Stuempel was deservedly the MVP, with Garrett Taylor showing up well as MIP. For the 2nd team, an extremely agile Alan Chung was the MVP and Jeff Holiday the MIP.

Thanks go also to Mr. West for his help at second team level and for travelling with the team.

If winning or tying games is the yardstick by which a season is measured then, I'm afraid, we did not enjoy a successful season. Instead, the realisation was that we had a very competitive team which improved steadily and, indeed, the end of the year ISAA tournament showed us to be on a par with the other teams in our league.

From a coach's point of view this was a very enjoyable season. There have been many other U16 teams that were more talented and successful, but none played harder or represented our school better, both on and off the ice, than this year's group of players.

My thanks to the team for weathering a difficult year with good spirit and best wishes to those moving on to the senior teams. In particular, both the team and I are especially grateful to Mr. Dawson whose presence and assistance, both on and off the ice was, as always, invaluable.

As for next year? Just wait and see!

Despite many newcomers, Under 14 Hockey had a good season this year. We won our share of games but unfortunately, we lost in overtime at the ISAA final tournament.

Our team had solid goal tending all through the season and especially towards the end when Mike Benton really came through in key games, therefore, Mike has been nominated the MIP by his teammates.

Our Captain, Jason Reid, was a superstar in the league and contributed a great deal to our offence. "How could we forget the game against De la Salle in which Jason scored five goals out of six?" This style of play earned him the MVP award for the season.

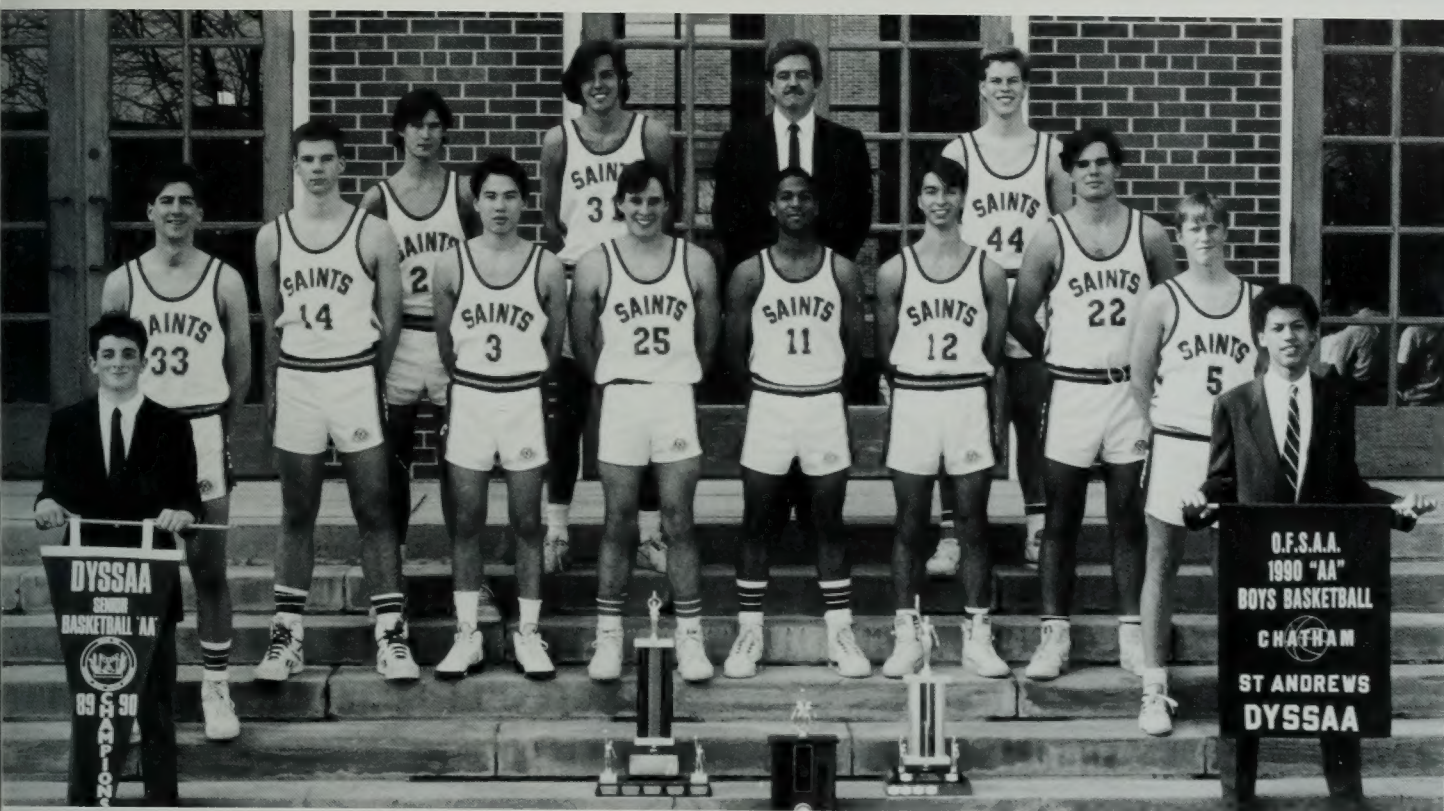

The new award this year, the SPGD Award (Slowest Player to Get Dressed) goes to Ryan Lawlor. Thanks to Liam Robinson for his superb management of the team, and to the players for a fun season.

"Let's shoot to see if we win today!" This was the crazy attitude of our team in the beginning of our season. With the craziness of Jon Ginou, Steve Skovhoj and a few others, we were able to have fun and play all our games with great effort. Although we finished the season with only two wins, our games proved to be exciting to the end.

With the likes of Danny Nelles, 3-point shooter Andy Kawai, Jim Dennis, Flo-Jo Jordan, Tony the Tiger (Tom Patterson), Dave Kim [our Captain] and the rest of our hard working team, our season was very enjoyable.

This year we had a fun season overall. The team learned many new plays which will benefit those who stay on the team next year. The most important thing that we were taught was a strong defence. Although we were a team on the short side, we still hung in there and put up a hard fight.

We were successful in beating a few teams with the speed and agility of Paul Etherington (MIP) and Kevin Wong (MVP). One of our key players on the floor was Rich Rabnett with his excellent playing abilities although he was missed during our Saturday games. Our main forward in setting up 1-3-1 offence was Sean Etherington who with his height was our main rebounder except for Josh Ginou, who was small but had a very good shot. Mike Kingston, our Captain, put in a good effort and enjoyed playing on the team for two years. Other players were always ready to play when called on. Our coach, Mr. Somerville, worked hard at teaching us simple but important steps; he helped me a lot over the years as a beginning basketball player. Also many thanks go to the manager, Leo Arhanic.

## THE BEST OF S.A.C. SQUASH

Squash at St. Andrew's has been condemned to an existence plagued with obstacles. It is not likely that someone could even dream of the problems which were unearthed within one of the most simple athletic structures invented by man, an enclosed rectangle, the squash court. Over the past four seasons there have been some blunders which were so unique they could not have transpired anywhere other than at S.A.C.

We shall begin with the most logical part, the floor: plain, sanded hardwood strips, which in almost every other squash establishment in the world are left untreated. However, this would not faze S.A.C. as they varnished the floor to a recumbent yellow brilliance! It's true that varnish preserves the flooring in addition to meriting quick and easy cleaning, but when any dust settled on the courts, the results were similar to the effect wax would have on a shuffle board - the creation of a frictionless surface, just perfect for a reflexive and jerky game of squash.

Needless to say, the floors were sanded, but only after hours of complaining and the regular five-week wait. With the flooring problem rectified, it was time to move on, so without much delay, a very large and physical player, Micheal Chen-Young, ran into and shattered the glass door on court two. Evidently, the replacement did not arrive for a month, but that wasn't the actual problem. It was bad enough when twenty players quarrelled and bickered over three courts, but two courts just didn't suffice. Practices dragged on for hours, and matches employed an entire afternoon.

The highlight of the 1986 season transpired with the arrival of squash uniforms. I have no idea who actually ordered the apparel; everyone I have asked shifts the credit to another, but it was, without question, not a squash player. They arrived in two massive boxes, one for shorts, the other, shirts. As it turned out, we were issued a pair of the most

tight, immobile and constricting shorts along with the ugliest shirt ever to enter a court: a white burlap sac with collars which paralleled the size and shape of a jumbo-jet wing!

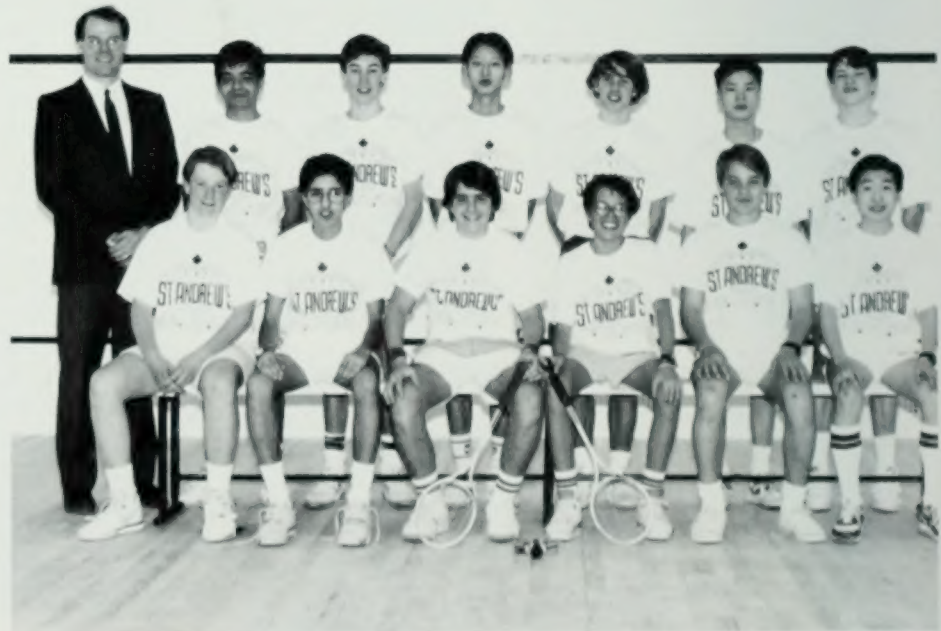

Now in the present season we have just endured the greatest impediment yet. With a vision of six illustrious courts we returned in September to find not six, not three, but no usable courts. Three filthy concrete frames and three unkempt, cluttered, dirt-laden storage rooms composed the squash wing. October ... November ... December ... and with the season officially started it was off to the Highlands we go for practice. With the promise of all six courts upon return, we left for our Christmas break in good humour. As if trying to test our patience, not a single usable court greeted our return. It was three weeks later when we were finally permitted to enter the wing and use the three old courts.

We should have known something was wrong; it was too good to be true, but we were all too caught up in anticipation. It was the night before we were allowed to play on the new courts when I saw it. As I gazed through the window at the newly painted courts, the first part of the multi-million dollar athletic complex, although impressed, I knew something was wrong. I was unable to pinpoint exactly what it was at first and even though it was blatantly obvious, it was overlooked. In an instant, it slapped me in the face - the service boxes were in the wrong place.

With the lines redone, the old courts are once again ours to use, and in fact just today, the new courts were handed over for our use - this chapter has finally been completed.

With everything now on track, we await the next challenge, some unique and incredible event which could only take place here, and with all confidence, we know it will arise.

The swim season began after November mid-term break as it has for several years now. However, this season the focus seemed to be less on the training schedule and more on the construction schedule. The comment heard most frequently this season was "When will the new pool be ready, Sir?" The excitement of a new pool and the prospect of a changeover from swimming races in a 20 yard facility to a 25 meter one absorbed the attention of all swimmers until the Christmas break. It soon became apparent upon the return to school in January that this season would be finished in the existing pool.

The First Swim Team benefitted greatly this year from two imports from Hong Kong- Michael and Patrick Hung and with the addition of two other boys from the local area who both had previous competitive experience, Carl Zank and Geoff Wood. This was a year of individual successes rather than team ones. Mike Hung, voted MVP by his teammates, competed in Butterfly, Breaststroke and Freestyle events throughout the regular season and lost only twice. In the ISAA Championship Meet held at the Etobicoke Olympium Mike placed First in both the 50 and 100 yard freestyle events despite some very close competition. Brother Patrick gained a Third place finish in both the 100 yard Individual Medley and the 100 yard Backstroke. Other strong performances were recorded by Jeff Aylesworth, a Fourth place in 100 Breaststroke and by Geoff Wood and William Long in the 200 yard Freestyle and 100 yard Individual Medley respectively. Bruce Lopez was awarded the MIP by his teammates.

With the 1991 season opening in November, St. Andrew's will no longer bear the reputation of having the oldest facility in the league. We will be the proud possessors of the only ultra-modern, six lane metric facility in the ISAA, complete with an electronic timing system. All swimmers from St Andrew's have something to look forward to: not only to a first rate facility but also as the hosts of the 1991 ISAA Championship Meet, on the 50th anniversary of ISAA Swimming Competition.

## FENCING

This year saw the fullest schedule of events, the best season of competition in many years. Fencing in Ontario has a new vitality now that more schools are teaching the sport and scheduling competitions. We had a small but very enthusiastic group who worked very hard all year. We entered two teams in every competition.

Our first team placed second in competitions in London, Brampton and Ingersoll. Because S.A.C., in it's effort to promote Fencing in Ontario, had long hosted the "Ontario High School Fencing Championships", it was decided that S.A.C. would host the final tournament of the year and that, based on this tournament, the winners would be declared the 1990 Champs.

S.A.C. came through with flying colours! Not only was the team undefeated, but Alan Chung (MVP) did not lose a single bout. Add to this, stellar performances by Carl Li and Blair Leggett and you can see CHAMPS written very large. Blair, Carl and Alan also travelled to Ottawa to partake in several senior and junior provincial competitions. A special note of thanks goes to Mr. and Mrs. Leggett who turned up to support S.A.C. at tournaments and brought oranges, juice and cookies.

With the loss of several key members, next year looks like a difficult one, but perhaps more Andreans will decide to take up what is a very demanding skill sport but one that is very rewarding and can lead to a lifetime of vigorous sport.

FRONT ROW (L TO R): Alan Chung, Carl Li, Blair Leggett, D. Hemmings, Esq.

I.S.A.A. Champions! A first for St. Andrew's at the 15-a-side game, and so richly deserved.

This was a very large team, as first teams go. We kept a roster of 25, simply because there was so much depth that cutting some would have been impossible to justify. Consequently, and regrettably, some spent the season on the touch line. To their credit, they remained eagerly supportive and committed to the success of the group, by providing competitive opposition in practice and competent play as substitutes. In this case, it is undeniable that these players have equally earned the name "champion".

The schedule included the visit of Swansea College from Wales, whom we beat 7-0, through opportunism and excellent defence. These traits repeated themselves through the ISAA games, which included a rare win against Appleby, a tough game against TCS and a memorable finale against Crescent.

A significant number of the side were new at the game. Richard Gill, Tariq Khan, Geraint Khan and Todd Mank - all backs - each learned the game quickly and made important contributions.

This year's forwards, despite the disadvantage of being unable to train on the latest in scrummaging simulation machines, learned technique through experience and experiment and developed the essential unity to contain opponents and supply good ball, particularly from line-out and open play. They were Rashid Khan, Matt Chisholm, Shane Stewart, Steve Creber, Brahm Mikol, Chris Blakely (MIP), Ted Shaw, Jamie Graham, Mike Hiscox, Andrew Zwingerberger, Rory Manning and Jeff Homer.

We had an equally talented and determined set of backs, who had the ability and composure to score the necessary number of points. The hours of practice on pacing, ball-handling, support play, second phase possession, and tactical plays paid off repeatedly. These talented, natural athletes were Mike Alexander, John MacMillan (Capt.), Tariq Khan, Geraint Khan, Rob Martin, Jeff Metclafe, Todd Mank, Mike Van de Merwe, Richard Vaughan, Nick Rose, Ron Kopas and Richard Gill.

A special note must be made of our effective captain; John MacMillan provided the leadership and focus which a championship team requires. He displayed integrity, fairness and determination when facing challenges, actually strengthening both his leadership and team solidarity in the process. We all owe John many thanks for his exceptional contribution throughout the year.

As coaches, we appreciated in all players, their endless hard work, single-minded devotion, and cheerful dispositions during this landmark season. Many thanks! Now, let the four cornerstones of our season - dedication, discipline, unity and spirit - lead us on to a repeat next year!

In a very short season made even shorter by adverse weather, the demands of Cadet, choir and play practices, and the shortage of teams to play against, the team had a few practices on the square and played four games, winning three of them. These successes were due to good bowling by Paul Etherington and Josh Ginou in particular, attacking batting by all and splendid wicket-keeping by team captain Mark Sinclair.

The worst memorable game was at Ridley, when the home side contained a girl ..., who hit a dozen run, bowled as well as the boys in the

team and took an excellent catch at square let to put an end to our innings!

The team designated Josh Ginou as its MVP and Michael Benton as the MIP.

My thanks are due to the team for its great spirit, for making the best of the situation and for playing in true sportsmanlike fashion.

## CHAMPS

The 1990 edition Track and Field team was an enthusiastic and very successful one. Over the past two years we have developed good sprinters, jumpers and throwers. There were however five goals that needed to be addressed this season:

1. To establish a "pole vaulting" team, thus making S.A.C. airborne. We were able to do this when ten dedicated and courageous individuals spent many long hours at York University being coached by the Canadian National Pole Vault Coach. Pole vault, our Achilles heel in the past, accounted for 56 of our points in the ISAA Championships. School records of 3.10m - Scott Bryk, 2.70m - Roman Melnyk, 2.45m - Shawn Christie were set in their respective age categories.

2. To establish some good hurdlers, working on the mechanics of hurdling by introducing the event to all age groups, especially the U12/U14 group of boys. Again, we had a strong showing in the hurdle events at the ISAA.

3. To establish an enthusiastic junior track programme. There were ten dedicated junior tracksters who had an outstanding season highlighted by the performances of Steve Lewis, U12 400 meter champion.

4. To put together a strong school team at the ISAA Championships. Backed by 31 full time track and field athletes, 26 more from other teams joined us, 57 strong, and put together an outstanding team effort as we captured the championships by over 140 points. Highlights were the relay wins by the midget and junior teams.

5. OFSAA Championships: three outstanding athletes represented S.A.C. in Sudbury - David Michael (1500, 3000 meter); Randy Tsioros (3000 meter); Sheldon Rodrigues (long jump).

S.A.C.'s Junior Tennis Team this year hardly compared to the talent of Wimbledon players, though our determination certainly came close. Many of last year's top seeded players moved on from the junior team and so this year's squad was comprised of many new and talented players who all improved greatly as the year progressed.

Weather played its usual part in disrupting our tennis practices during the first weeks. Oftentimes, the courts resembled a hockey rink rather than an asphalt court with icy snow and bitter winds temporarily preventing play. Yet the Arctic temperatures of the first few weeks did no more than increase the team's eagerness to get out and play. The skies brightened and matches commenced with the ever strong UCC, Albert College and Appleby all losing to S.A.C.

The ISAA Tournament held promise of victory for the team as the season's matches had determined us as one of the strongest teams. The tournament was played at Mayfair West Tennis Club and proved an enjoyable change from the usual outdoor courts. During the first round of the tournament, we learned a lesson about our overconfidence as last year's champs, Crescent, demolished S.A.C. 4-1. The second round was played with a vengeance and the team managed to redeem itself, beating Appleby College 4-1. The next two rounds versus Trinity and Hillfield both saw great matches from S.A.C., yet the first round's loss proved enough to eliminate us from the tournament.

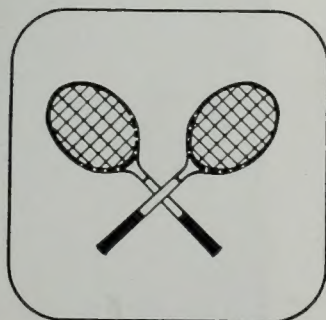

Highlights of the season were numerous as all members of the team have their best. Special note to the doubles team of Irwin Liu and Kusal Fernandes whose small size and thundering topspin often psyched and defeated the opposition. On the whole, it was a very satisfying and successful year full of slices, aces, topspins, lobs, sets, matches and wins. It is evident that next year's team will undoubtedly be one to be reckoned with. Many thanks to Mr. Paolini for his eagerness, devotion and skill as it benefitted the team greatly.

(L TO R): Simon Hall, Alan Best, Patrice Bansa.

The St. Andrew's golf team, made up of Craig Matheson, Ken Innami, Jeff Lessif and Jay MacWilliams, had another successful season. For various reasons, we were only able to participate in two of the four tournaments held this year; but we won them both. In the Lake Field Tournament, we defeated ten other ISAA teams. Craig Matheson scored low with a 78.

The ISAA championship was again held here in Aurora. St. Andrew's successfully defended the championship for the third straight year. Craig Matheson and Ken Innami were tied with two other players for a low score of 82.

Craig Matheson has been on three championship teams. Ken Innami and Jeff Lessif have been on two each. All three will be returning next year.

G. Ackerman

This year looked to be one of the most promising in past years. First Rifles was comprised of five seasoned veterans plus Simon Hall, our high prospect rookie. Our captain, Patrice Bansa, had a great year highlighted by shooting a 98 which earned him the S.A.C. shooting trophy.

The team placed third in the qualifying round of the Ontario Rifle Association Finals, and third in the finals for Ontario. The Second Team qualified fifth and finished in the sixth position. The MIP for the First Team was Patrice Bansa, and because we had such a strong team, no MVP was selected. The MIP for the Second Team was Ryan Rocha and the MVP was their captain, Ian Rogers.

The Crowe Medal was won by Scott Martin and the Crowe Trophy went to Simon Hall. It was a good year and we look forward to the next since five veterans will be returning to the First Team. Thanks to Mr. Myrans, our coach, for giving us his time this year.

## The Thrill of the Wild

Focus. Block out all the rest. It's just you and the river, and that's all that matters. Pull, pivot, buffet, turn. The last gate negotiated. Keep going. Sprint to the finish. Paddle. Almost there. Paddle. Fifteen metres. Push it. So close. Pull. You can do it. With one determined stroke you cross the line. Wild! People are shouting but all you hear is the river, and you love it. You are a whitewater kayaker. No, you are a white water kayaker from St. Andrew's College, and you know it.

The thrill of whitewater is an experience only a few here at St. Andrew's ever have, but those few remember it forever. Kayaking at our school is often forgotten beneath the fury of rugby and the complexities of cricket. Yet it is there, and always will be.

Over the years, our team has grown from a fledgling group of curious outdoorsmen to a force on the whitewater circuit known across Canada. Does anyone here realize it? A few people say "Hey, that looks neat" and never try it, but many others simply ignore its existence. In fact, kayaking at St. Andrew's is

on a downswing of interest. This is a shame, because whitewater kayaking is one of the most invigorating and self-rewarding sports offered at this school.

Kayaking is nature and man combined as one, it is cooperation between a river and a paddler. It can be both intense and calm, wild and quiet. To the kayaker, no goal is unattainable. It just takes concentration and discipline. You can do it, no matter what. Whitewater does that to you. It teaches you and it calls to you. St. Andrew's offers this opportunity to all its students, this chance to experience the intense thrill and deep feelings of running a rapid. All you have to do is try. It's that easy.

The school's program is excellent. Not only does it teach you how to paddle, it builds your confidence and it offers you chances to go further than the ISAA. The instruction and skills you receive here can be carried into competition everywhere, or simply into a weekend of fun in the sun. Feel the thrill. Go for it!

# LACROSSE

This season marked the third anniversary of the Saint's Lacrosse program at St. Andrew's. Since starting it in 1988, I have seen a real surge in enthusiasm and player participation on and off the field. Next season we become an officially recognized sport and hope to expand our horizons into the other independent schools. Although our team fared well against much more experienced teams, we hope to join the ranks of the Ontario "C" Division next year where we will be more equally matched. Special mention goes to all the younger boys on our squad this season who withstood some pretty fierce physical punishment, like Charles Bedard who received a bloody forehead, a black eye, but managed to join the prestigious ranks of the One-goal Club.

Thanks to Kevan Edwards and Toby Ross, our captains, and also our MVP and MIP respectively, for their continuous support and good humour; whether facing teams outfitted in football equipment, waiting three hours for a bus, or playing through a thunderstorm, our boys kept a cool perspective throughout the season under their direction.

As a coach, I am sorry to see some of our senior players leave but hope that they will find Lacrosse a part of their university careers. In the same vein, I am excited that we still have a very young and enthusiastic squad of boys just waiting for next season to open. We hope to hold a "membership" drive next fall to recruit new boys for the sport that is steadily attracting widespread interest across the province. Lacrosse: The new breed of sportsmen. Be a part of it!

JA is a non-profit organization that offers high school students a practical learn-by-doing scenario. Students organize and manage a small business. It begins with selecting a product and it develops into production lines, manufacturing and sales. This year, UA's headquarters were set up at Passport Motors (first one in York Region) where eight S.A.C. students participated in meeting three hours a week once a week for almost the entire year.

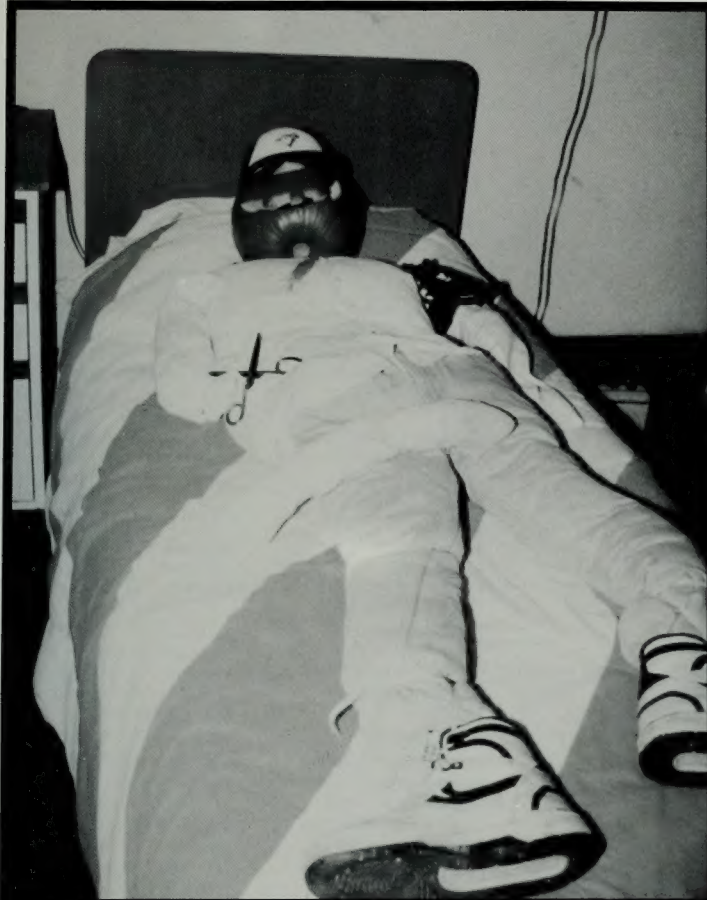

One company which consisted of Edward Tan, Todd Pepper and Alan Chung was called Flower Power through which one could adopt a plant. The other company was called Understatements which made boxer shorts with statements on them (eg. Party your pants off; Cheek 2 cheek; If you can read this, introduce yourself; and Bottoms up). This company consisted of Jay Yoo, Scott Martin, Bruce Chin, James Wang and John Morris. By running the company so efficiently, Understatements made a huge profit and ended up winning "Company of the Year" honours from all entries in the Toronto and York regions. Scott Martin won the Junior Achievement Award and John Morris won best VP for Personnel.
